A NOVEL PROPOSITION.

Owner of a Street Railway Offers Memphis Staff Interest.

MEMPHIS, Tenn., Jan. 10.—At a meeting of the city council last night the mayor broached a proposition made by J. C. Billings, of Chicago, the owner of the Memphis street railway lines, to the result in a big deal. Billings wants to make a stock exchange out of his enterprise. He wants to issue bonds to the value of the street railway system, and to sell them at \$125,000,000. The bonds he will take first, and then issue stock for that amount and give the stock half of it.

Billings wants to avoid the constantly recurring conflict of interests with the city which may jeopardize his investment. The proposition was favorably commented on by members of the council and may be accepted.

Rudini Resigned.
PARIS, May 6.—The Marquis de Rudini announced the resignation of his ministry in consequence of the vote of confidence in the chamber of deputies yesterday. Great political excitement continues to prevail and all eyes are discussing the future.

Cut His Throat.
NEW YORK, May 6.—Halstead Wat-
son, a Wall-street broker, committed
suicide at his residence, No. 34 East
Ninth-street, last night, by cut-
ting his throat with a razor. No cause
for the suicide is known.

ARE FOR AN IMMENSE CROWD
Washburn's Advice to the Citizens of Minneapolis.
MINNAPOLIS, May 6.—Senator Washburn, who has returned from a three-day visit to New York, says that he is glad to find that Republicans in section of the East are going to attend the Minneapolis convention as delegates. Senator Washburn thinks Minneapolis wants to use every effort to accommodate for the visit of a larger number than the most sanguine had hoped for. This is in a great measure due to the prospect of a close contest in selecting presidential candidates.

WYOMING INSIST UPON BLAINE.
The Wyoming Delegation Will Vote For No Other Candidate.

Platt Against Harrison.
 WASHINGTON, May 6.—A Republican leader who has had a conference with Platt within two days says that the New York leader will never be induced to support a New York delegation support at Minneapolis. Platt reiterates his emphasis that Harrison is the man for the Democrats to defeat. He also claims that fifty of New York's two are unalterably opposed to Harrison's renomination.

Died in Prison.
Ill., May 6.—Patrick O'Sullivan, suspect, died in prison evening at 7:40. With him at the time of his death were his sister, Mary, and his wife, Mary, of Chicago, and his son, John, of Fonda, Iowa. To the last moment he declared his innocence.

Newspaper Publisher Dead.
 LO, N. Y., May 6.—O. G. War-
 prietor of the Buffalo Commer-
 this morning.

Perkins was in the city this morning on his way to the Vermilion ranges to arrange for surplus sections with the best possible facilities. Mr. Perkins is president of the tenth division of the great mail service, which is not only the largest but the best managed in the world.

A brick building collapsed owing to its being undermined by the rain. The heavy rains have come down in torrents and the streets in one district of the city were flooded. The Ozark flats at Thirty-ninth street and Madison avenue are now under water, with five feet of water. Aside from polluting of the water the high water is but little damage.

At midnight, last night's storm was the worst in years. For ten hours it fell in a solid body, flooding the entire city. The Chicago, Burlington & Northern Pacific, the Rock Island and Washburn between this city and Creston, which stopped all traffic during the day.

The expected rains will run today. South Main street has been under water three feet of water for a time.

SNUBBED BY HARRISON.
Methodist Delegate Says he Did "A Dirty Irish Trick"
DANA, May 6.—In the Methodist annual conference this morning, over an hour was taken up by the reading of minutes and itemizing the many resolutions, appeals and moral resolutions adopted yesterday. The action of President Harrison in signing the Chinese exclusion act last night, within a few hours of its delivery to him, is being seriously questioned and debated. The conference appointed yesterday to prepare a moral protesting against the bill, telegraphed the president last night concerning the action and requested that the president has directly snubbed

unanimously. Mr. Evans was called upon for a speech and made a good address. Then occurred the most dramatic and notable incident of the convention. As Mr. Evans started to walk off the stage he suddenly turned and moved that it be declared the sense of the convention that Senator Davis should be elected to succeed himself in the senate. WHEAT PROFITS AGAIN.
In another column will be found some
extracts from the annual report of the
railroad commissioners of North Dakota,
in which an attempt is made to show
that the farmers do not receive the pro-
fits on their wheat to which they are en-
titled, but that the grain dealers make a
profit of 30 cents on every bushel shipped
from Fargo to Liverpool. Calculating that
the elevator companies will handle
30,000,000 bushels of the 1891 crop, it is
claimed that there is a loss of \$9,000,000
to the grain grower, owing to the dealer
making a profit of 30 cents per bushel.

The argument of the North Dakota
commission is very similar to that con-
tained in recent articles in the St. Paul
Pioneer Press, to which The Herald has
referred in previous issues. The claims
of the North Dakota commission and the
Pioneer Press theorist are based upon
false premises. The figures which they
produce to show the cost of transporta-
tion and other charges between Duluth
and Liverpool are so manifestly incom-
plete and incorrect that the falsity of
their conclusions is manifest at a glance.

The report of the North Dakota com-
mission bears the earmarks of that very
shrewd Grand Forks politician, George
H. Walsh, who is reputed to have his
eye fixed upon the governorship and
who has been endeavoring for many
months past to make political capital
with the farmers out of his position as
commissioner.

The Herald has already shown that the
profit of 30 cents per bushel to the grain
dealer is a mere myth, and that those
who figure out this profit of 30 cents
know nothing about what they are
talking, as is evident by the wonderful
figures which they present to support
their contention in regard to the elevator
and carrying charges. The extracts from
the report of the commission, which are
given in this issue, are accompanied by
some figures which demonstrate the
utter lack of knowledge on the commis-
sioners' part in respect to the cost of
handling wheat between Duluth and
Liverpool.

If there is a profit of 30 cents per
bushel between Fargo and Liverpool,
why does not that distinguished patriot
and professed friend of the farmer enter
into the business himself and add to his
wealth? The number of grain exporters
at Duluth is very limited. If such large
profits were assured, would not the
number of exporters be very much
greater?

A NOTABLE INCIDENT.
There was a notable scene at the Re-
publican state convention in St. Paul
yesterday, when Hon. R. C. Evans of
Minnesota suddenly and unexpectedly
moved that it be the sense of the conven-
tion that Hon. Cushman K. Davis should
be re-elected to the senate. The idea
caught the convention at once, and the
shout of approval that went up from the
assembled delegates testified to the feel-
ing which is almost general among the
Republicans of Minnesota on the sena-
torial question. The convention adopted
the resolution amid ringing cheers con-
tinued for several minutes, waving of
coats, hats and umbrellas. It was prob-
ably the most enthusiastic incident ever
seen in a political convention in this
state, because the enthusiasm was not
forced nor simulated for theatrical
effect but was the irresistible expression
of the heartfelt desire of every delegate
in the large gathering.

When Governor Merriam stepped forward and seconded
the resolution the enthusiasm of the de-
legates was intensified and Market hall
rang again and again with loud cheers
for Senator Davis.

It was a splendid testimonial of the re-
gard in which the senior senator is held
by the members of the Republican party,
and it was no wonder that the unexpected
incident affected him so powerfully
that he could hardly speak. The tears
of pleasure, joy and gratitude at this
public and spontaneous expression of
love, respect and renewed confidence,
rolled from his eyes, and in a voice,
husky from emotion and evering with
feeling, he briefly expressed his deep
sense of the honor thus conferred upon
him and confessed his utter inability to
say anything in reply to such an en-
tirely unexpected demonstration of approval
of his course as a public man.

It was an inspiring sight that will long
be remembered by those who witnessed
it. No man, no matter what his political
belief, could fail to be impressed with
the significance of the scene. It

settled in an instant all question con-
cerning the position of the Republican
party of this state on the senatorship,
and the action of Governor Merriam in
seconding the resolution in favor of
Senator Davis, confirmed in an emphatic
manner his previous declarations that
he will not seek to step into the position
now so worthily filled by Senator Davis.

A DISTINGUISHED HONOR.
The selection of Senator Frank R.
Daugherty by the Republican state con-
vention to be one of the four delegates
at-large to the national convention is a
high compliment to the Republicans of
this section as well as a distinguished
honor for the young senator—an honor
of which he may well feel proud. The
sentiment of the entire convention was
that Duluth was entitled to recognition
and it should receive anything reason-
able that it desired.

When there was a slight danger that
in the complication of resolutions and
amendments which arose, Senator
Daugherty might be unintentionally de-
feeted, Hon. John Lind came to the
rescue and with the aid of his experi-
ence in parliamentary practice, the com-
plication was removed and Senator
Daugherty and Senator Frank Day of
Fairmont, were chosen together unani-
mously. Having accomplished what it
started out to do, the Duluth delegation
has good reason to feel satisfied.

Where was the cruditest statesman from
the Fifth district of Minnesota during
the debate in the house on the river and
harbor bill? The appropriation for lake
improvements, in which the people of
the whole Northwest are interested,
was attacked by Parsimonious Holman
and Brigadier Breckenridge, but it does
not appear that Kittel Halvorsen had a
word to say in its defense. It remained
for Mr. Catchings, of Mississippi, to de-
fend the bill in which Duluth has a deep
interest.

Dr. A. A. Ames publishes a card in a
Minneapolis paper that he will not pay
any bills unless authorized by him in
person or in writing. This taken in con-
nection with the rumor that "Doc" is
about to re-enter the political arena, is
significant. It is evident that he intends
to run the financial part of the cam-
paign himself.

Congressman Whiting of Michigan,
who is opposing the appropriation for a
deep water channel from Duluth to
Buffalo, is too narrow between the eyes
to be seriously criticized. Lack of brains is
the malady which afflicts him.

John G. Carlisle has become a full
fledged presidential candidate, and it
now seems settled that the Kentucky
delegation to Chicago will be instructed
for the distinguished bluegrass senator.

"The Queen's Mate."
The appearance of the Duff Opera
company at the Lyceum will be the
operatic event of the season. Mr. Duff
has a larger company than ever this
year, and with his large chorus, superb
cast and special scenery, this engage-
ment promises to be the most complete
production of spectacular comic opera
ever presented in Duluth. The engage-
ment will open tonight in Chas. Lecocq's
beautiful opera, "The Queen's Mate,"
which will also be given at the matinee
Saturday. Saturday night the funniest
of all comic operas, "Paola," will be
given. As both of these operas are new
to Duluth, it is safe to say each perform-
ance will be greeted with a crowded
house.

Swedish Ladies Tonight.
Tonight the Swedish National Concert
company appears at the Temple and
will undoubtedly be greeted by a full
house. The Swedish ladies have won
an enviable reputation in their concerts
throughout the Northwest. Their voices
are rich, sweet and thoroughly trained;
the modulation is wonderful, while the
dash and range of the singers surprise
and delight. The voices of the first so-
prano and second contralto especially
are of phenomenal range and power; the
sopranos clear and rich as a bell and the
altos round and resonant, approaching a
bass in strength and quality. Mel-
vin R. Dav, the elocutionist, is very
clever and his recitations and impersona-
tions always please.

"She Couldn't Marry Three."
"She Couldn't Marry Three" in which
Miss Lillian Kennedy, the soubrette, ap-
pears at the Temple tomorrow evening,
is a play especially adapted to her
capabilities and she has won great suc-
cess in it. Her singing and dancing is
very clever, and in the more serious
parts she is seen to excellent advantage.
She has a large company to support her
and plenty of realistic scenery.

Only Suppressing a Friend.

Three women were arrested at the depot yesterday by Officer Small for being disorderly, but a private examination showed that two of the number were simply trying to restrain an uproarious third. As they had tickets for a distant place and were evidently going to get there as soon as possible, they were allowed to get out of the city at once. They will leave before evening. There were three plain drunks in the morning, one of whom, W. J. Brown and James Cuttle, all pleaded guilty and Mr. Brown paid his fine. The others went up for ten days each.

Leased His Patent.
Edward Henneberry, who lately received a patent on a dredge which it is said will revolutionize the cost of excavating for buildings and road improvements has leased the same to a prominent contractor, Mr. Henneberry has other applications for patents pending at Washington.

BIG BANK CLEARINGS

Grand Total for the Week is \$3,739,698.48.
One of the Largest in the History of the House.

More Than Double That of the Corresponding Week of Last Year—May Delivers Cause It.

A South Shore Conductor Has a Dangerous Experience With a Pair of Desperate Tramps.

The bank clearings in Duluth for the week closed yesterday footed up \$3,739,698.48. This is one of the biggest weeks ever known in the clearing house. For the corresponding week of last year the clearings were \$1,850,059 or less than one half the amount of this year's. Of course the unusually large amount this week is due to the May deliveries of wheat which were extraordinarily large.

In Duluth there were delivered on Monday 10,000,000 bushels of wheat while Chicago's delivery on the same day was only 100,000 bushels. The clearing house figures do not, however, by any means indicate what the actual business was. The transaction of two banks alone on one day of this week ran over \$200,000,000. When the figures become known outside it will set some people to thinking.

WOULDN'T GET OFF.
A Pair of Nerve Tramps Shoot at a Conductor.

Conductor Gibson of the Duluth, South Shore & Atlantic railway had an exciting adventure with tramps yesterday near Michigamme on that road. He was proceeding westward and discovered two men riding on the front end of a "blind" baggage car and stopping his train he ordered them to pay their fare and get into the coach or get off. They refused to do either and when the conductor attempted to put them off one of the tramps fired at him, the bullet fortunately missing the intended target, but the shot was at such close range that one side of Mr. Gibson's face and hand were blackened by powder. Mr. Gibson then drew his "gun" and compelled the tramps to surrender. He then escorted them to the baggage car and at Michigamme he turned them over to the civil authorities where a charge of assault with intent to do great bodily harm was brought against them. Mr. Gibson brought his train as far as Iron River, He then went to Michigamme where he will appear against the rascals.

St. Paul, May 12, '92.

I desire to announce to all the residents of Duluth that I have established an office in the Woodbridge block, rooms 312, 314 and 316, in charge of Dr. W. W. Schiffman, for twelve years a practitioner in this city.

Dr. Schiffman has been associated with me for the past year in my practice in St. Paul. Unreservedly I recommend him as a capable, careful and painstaking operator, efficient in a high degree, an expert in crown and bridge work. Dr. S. will operate my new method for painless filling exclusively hereafter in Duluth.

C. E. HALE, D. D. S.

Not Painless Dentistry.

I wish to inform the residents of Duluth that Dr. C. E. Hale of St. Paul, has succeeded in devising a new method that will produce insensibility in teeth while being prepared for filling. No chloroform, ether, bromide of ethyl or cocaine enters into the agent used; yet absolute freedom from pain is easily and quickly produced in the most sensitive teeth. I wish to state emphatically that the composition of the agent used and method is wholly original with Dr. C. E. Hale, that it has never been used outside of his office, and that it will be used in his branch dental rooms exclusively in this city.

THE AMUSEMENT WORLD

The Duff Opera Company Gives a Fine Presentation of "The Queen's Mate" at the Lyceum.

Fisher's Combination at the Temple Monday Evening in "A Cold Day or the Laplanders."

Jennie O'Neill Potter and James Whitcomb Riley and the Sappho Quartet Coming Next Week.

The appearance of the Duff Opera company last night at the Lyceum was an eminently satisfactory one in every respect. The house was well filled and the audience was warm and appreciative. "The Queen's Mate" is a pretty comic opera and the presentation at the Lyceum was very good. Miss Helen Derham, the soprano, has a clear, strong voice, and sings with excellent expression and sweetness. Her solo, "Dear Heart," in the first act brought a fine encore and an elaborate bouquet from an admirer. Miss Bettina Girard has a pleasing voice and a charming manner, and she, too, received a floral remembrance from a friend. Richard F. Carroll, the comedian, and who, by the way, was here with Pauline Hall, was excellent, which means very comical. His song, "You Can Guess the Moral," was encored several times. William Schuster's fine voice was heard at splendid advantage in the part of General Bonardos and the duet between him and Henry Stanley, who is clever and sprightly as ever, was one of the prettiest things in the opera. John J. Kallaf makes an excellent Pezullo and supports "Dick" Carroll in his comedy part very well. Miss Gussie Cogswell's Spanish dance was very good. The march in the last act was one of the best ever seen in Duluth, both in costume and in the ease and certainty with which the unusually difficult evolutions were gone through.

This afternoon the company presented "The Queen's Mate" at a matinee performance and tonight "Paolo" will be put on. W. H. Clark, the basso, will be heard in this.

"A COLD DAY."

Evening Comedies at the Temple Monday

"A Cold Day or the Laplanders" comes to the Temple Monday evening with some flattering recommendations. The play is a farce comedy and is one of the best of its class. The first act of this absurdity is located at Long Branch. A photographer is trying to take a view of a house; a crowded street car stops against his focus, and he gets a view of two women, each seated in the lap of a man. This is why the second title of the play is called "Laplanders." Why the first title is "A Cold Day" can only be guessed at. Perhaps in the slang of the day, it is a piece the author thinks will not get left. The author is Joseph Arthur, a man celebrated in his

profession as the truthful agent. Well, the rascally photographer uses his negatives as a means of blackmailing the victims he has taken, and breaks up a happy home and gets everybody in hot water. The second and third acts take place on board the ocean steamer Never-sink. The captain has invited the ladies on board, and the husbands, brothers and other male persons follow in various disguises. They skip the bounds of probability in such a meeting—the characters do—but they all get there. The most of the fun takes place on board the steamer. There is some slang bang and horse play in the farce, but it seems to please. Miss Carlotta is a clever little soubrette and dancing artiste, her dancing is simply immense and always calls forth vociferous applause. Mr. Amann is a good German dialect comedian. Some taking songs are introduced.

"FLIRTS AND MATRONS."

Jennie O'Neill Potter Reads at the Temple Wednesday Evening.

Who is there in the Northwest who has not heard of the wonderful success achieved by Miss Jennie O'Neill Potter in her monologue entertainment called "Flirts and Matrons." How she first went to New York city believing that to be a better field for her talents than away up here in this frigid clime and how she struggled along until at last she succeeded in getting enough money together to get the veteran author and journalist, Robert Griffin Morris, to write "Flirts and Matrons" for her. When she was ready she produced it for the first time at the pretty little Berkeley Lyceum theater, New York city, before a very select audience of society people. The audience was an enthusiastic one. "Flirts and Matrons" was a success, nothing to equal it had ever been seen. Such so-called leaders as Mrs. Benjamin Harrison, Mrs. John W. Vanamaker, Mrs. W. C. Whitney and Mrs. Senator Jones of Nevada became her special patronesses. Last summer Miss Potter sailed for England, and under the patronage of such members of English nobility as the duchess of New Castle, Lord and Lady Lonsbury, Lord and Lady Brassey, Mrs.

John Mackey and others, she gained the title of "The Queen of American Readers." Although petted and praised by the most fashionable and aristocratic sets of the two greatest governments in the world, the sweetest of lyrics "Home Sweet Home," has ever rang in the ears of the deserving little Wisconsin girl. Miss Potter will appear at the Temple Wednesday evening.

James Whitcomb Riley. The entertainments by James Whitcomb Riley, the Hoosier poet and actor, assisted by the Sappho Quartet, to be given at the Lyceum theater Thursday and Friday evenings of next week is looked forward to as one of the principal attractions of the season. It has been truly said that Mr. Riley is a revelation. He is not only poet and humorist, but he is also a most versatile actor. Every body has wept over the pathetic portions of his poems, and has laughed over the exquisite humor they contain, but nobody can realize the beauty of it all until Riley himself introduces these creations of his pen. He is, indeed, one of the few people to whom nature has given an unusual talent. Of the Sappho Quartet there can be but one opinion, selected as it has been from ladies, each of whom command high salaries in positions as vocalists—that it is one of the finest ladies' quartets that has ever appeared in the West.

Dramatic Gospel. Topsy Venn has left Henderson's American Extravaganza company and sails shortly for London.

Barney Fagan, it is said, will play Scanlon's part in "Mavourneen" next season.

The late Pat Rooney's three daughters—Mattie, Katie and Jennie—intend to take out next season a company to be called "The Rooney Comedy company."

Richard Mansfield is dramatizing Fergus Hume's novel, "The Man Who Vanished."

Pauline Hall's new opera is called "Puritana; or, the Earl and the Maid of Salem."

"The Gray Mare" was put on at the Lyceum theater in New York last week by Dan Frohman and is having a great run. It is adapted from the German by George R. Sims and Cecil Raleigh and is a genuine comedy. Miss Georgia Cayvan is leading lady.

Miss Sibyl Johnstone will appear as Juliet next season at a popular Broadway theater.

It is rumored that Charles Frohman is seriously thinking of leasing a theater in London and producing all his successful plays there.

Miss Maud Adams, of Charles Frohman's stock company, has been selected to play leading roles with John Drew.

Miss Adams has been with Mr. Frohman's stock company for two years.

Maggie Mitchell closed her season last Saturday and has gone to Hot Springs, Ark.

Katie Emmett closes her season of forty weeks in "Faith of New York" this week. Next season she appears in a new comedy drama, opening at the Star theater in New York.

Maud Granger has closed her thirty-four weeks' season at Elgin, Ill., and has gone to New York. It was one of her most successful seasons.

The libretto of "Sinbad" is being a bit altered for the New York presentation.

Eddie Foy's Chicago river jokes and the topical songs about the aldermen will have to give way to humor about the Brooklyn bridge and Broadway.

Willful Waste. "I tell you, Bill, I'm agin all this ship building." "Why?" "Cos every time they get one done, the first thing they do is to go to work and spill good likker over it."—Washington Star.

Old Times, Old Love. [Imagined Field in Chicago News.] There are no days like the good old days—The days when we were youthful! When bitumens were pure of mind And speech and deeds were truthful; Before a love for evil could become a man's ruling passion. And before each dame and maid became Slave to the tyrant fashion!

There are no girls like the good old girls—Against the world I stand 'em! As buxom and smart and clean of heart As the Lord knows how to make 'em! They were rich in spirit and common sense, And pretty all superfluous! They could bake and brew, and had taught school, too! And they made the likeliest courtin'!

There are no boys like the good old boys—When we were boys together! When the grass was sweet to the brown bare feet! That dimpled the laughing heather; When the peewee sang to the summer dawn Of the boys in the hill-top clover. Or down by the mill the whip-poor-will Echoed his night song over.

There is no love like the good old love—We love that mother gave us! We are old, old men, yet we love again. For last precious grace—God save us! So we dream and dream of the good old times. And our hearts grow kinder, kinder, kinder. As these dear old dreams bring soothing dreams Of Heaven away off yonder.

Comrades. Born in the same village in Ireland, where they were friends during their early life; emigrants on the same ship, chums and roommates for twenty-five years, sufferers from consumption at the same time and victims to the ravages of the disease at the same hospital, and on the same day is a summary of the curious life of Peter Duffy, 65 years old, and John Murphy, aged 62, who were buried together a few days ago at Calvary cemetery, New York.

Nervous debility, poor memory, diffidence, sexual weakness, pimples, cured by Dr. Miles' Nervine. Samples free at Max Witt's.

Port Arthur and Isle Royal. The fast steamer H. R. Dixon, of Booth's North Shore line leaves the company's dock on Lake avenue, Sunday morning at 10 o'clock sharp for Port Arthur, Isle Royal and all intermediate points on the north shore. For freight or passage apply at the company's office, 519 Lake avenue south.

We have secured, for our piano tuning department, the services of Mr. Everts, a graduate of Boston conservatory. Mr. C. A. Green will also continue with us. With two tuners we can give prompt attention to all orders.

St. Paul, May 4th '92.

I desire to announce to all the residents of Duluth that I have established an office in the Woodbridge block, rooms 312, 314 and 316, in charge of Dr. W. W. Schiffman, for twelve years a practitioner in this city.

Dr. Schiffman has been associated with me for the past year in my practice in St. Paul. Unreservedly I recommend him as a capable, careful and painstaking operator, efficient in a high degree, an expert in crown and bridge work. Dr. S. will operate my new method for painless filling exclusively hereafter in Duluth.

C. E. HALE, D. D. S.

Not Painless Dentist, But Painless Dentistry.

I wish to inform the residents of Duluth that Dr. C. E. Hale of St. Paul, has succeeded in devising a new method that will produce insensibility in teeth while being prepared for filling. No chloroform, ether, bromide of ethyl or cocaine enters into the agent used; yet absolute freedom from pain is easily and quickly produced in the most sensitive teeth.

Dr. W. W. Schiffman, a practitioner in this city.

"That Boy of Yours" Is the subject of Rev. E. O. Taylor, the national lecturer of the Women's Lecture Bureau, under the auspices of the Duluth Y. W. C. T. U., at the M. E. church. Mr. Taylor is a temperance orator of national reputation, and will deliver the lectures at the above church on Sunday evening, on Monday evening, the 9th, on the subject: "Is Alcohol a Poison or Not, Which?" and the third and last lecture on Wednesday evening of the 11th, "A Glass of Beer Analyzed." All persons interested in temperance and all others are invited to hear to hear these discussions.

No admission fee will be charged except on the last night when only a small attendance to defray expenses will be asked.

DULUTH'S SOCIAL SIDE

The Week Somewhat Monotonous and Not at All Brilliant Socially Speaking.

The Production of "Priscilla" by Duluth Amateurs the Most Attractive Social Event.

Some Brief Bits of Gossip About Duluth Society People and Their Visits and Visitors.

One of the most delightful little operas ever given in Duluth by local amateurs was that entitled "Priscilla, or the Pilgrim's Proxy" which was given at the Lyceum Tuesday evening. The audience was one of the best ever seen in the beautiful theater. Miss Bessie Hunter carried off the honors in the title role. Mrs. Franklin Paine as "Resignation," the Misses Fannie and Mabel Holden and Miss Lucille Higgins in their several parts did very well indeed. Some of the gentlemen covered themselves with glory as well. The chorus work was excellent and showed the careful training of Signor Sala, whose pupils the participants principally were. It is to be hoped that this will not be the last opera to be presented by Duluth amateurs for this one has demonstrated that Duluth has some very fine singers and actors as well. Then the presentation was quite a social feature and they always will be.

"A DISS REHEARSAL."

A Charming Operetta to be Presented This Month.

An operetta called "A Diss Rehearsal" by Louis Dehlie, is being gotten up by some of the young ladies of St. Paul's Episcopal church. It is to be given the last week in May, and for the benefit of the West End mission. The cast is a good one, comprising names of some of the best singers and many who have won laurels for themselves on the amateur operatic stage. Following is the complete cast of the principals:

Miss Jones, principal of Grove Hill academy; Mrs. Bowen Mademoiselle Equilard, French governess; Miss Louise Cullyford Amy Fibbis, afterward Cinderella; Miss Rebecca Clara Wilkins, afterward the prince; Miss Minnie Sarah Ann, the greedy girl; Miss Josephine Sophronia Spinas, the romantic girl; Miss Hubbard Martha Higgins; Miss Armstrong Carrie Jackson; Mrs. Holcomb Mrs. Jany, election mistress; Miss Helene Catherine Miss Priscilla Priscilla; Miss Louise McKenzie Rose Jennings, afterward fairy godmother; Miss Fannie Holden; Miss John Loman; Miss Sydney Brown.

The Organ Recital.

Pilgrim Congregational church was well filled last evening by an audience that assembled to listen to Mrs. Loman's organ recital. The program was a brilliant one and every number was a gem. Mrs. Loman is an accomplished organist and all of her numbers were of an unusually high character. T. L. Lammers sang two fine solos in an excellent manner. There is not a finer male voice in Duluth than the rich baritone of Mr. Lammers. Sydney Brown gave two violin solos which were remarkably fine and added greatly to the program.

The Stocker Recital.

The pupils of Mrs. Stocker, assisted by Mrs. W. B. Chapin, gave a very interesting piano recital at 104 East Second street Wednesday evening. The program was composed of classical selections and all of them were given with remarkable grace and finish. Those who took part were Miss Lucia Judd, Zada Call, Frances and Lynda Woodbridge, Wilhelmina Ruxley, Ruth Marshall, Florence Ames and Mrs. C. A. Towne. The recitals are given quite frequently and are always a success socially as well as musically.

The Musical Suite.

The musical suite met today at the residence of Mrs. William Harrison 207 East First street and the following program was given:

Piano—Eloxy of Music.
Miss Mabel White.
Piano Solo—Selected.
Mrs. Wm. Harrison.
Life of Chopin.
Miss Emma Johnson.
A La Hongroise.
Miss Mabel White.
Ripples on the Lake.
Miss Mabel White.
Tarentello.
Miss Luez Hibbard.
Gipsy Rondo.
Miss Ellen Schibbeler.

Rest.

(Father Alvan J. Ryan.)
My feet are weary, and my hands are tired,
My soul oppressed—
And I desire, what I have long desired—
Rest—only rest.

'Tis hard to toil—when toil is almost vain,
In barren ways—
'Tis hard to sow—and never garner grain,
In barren days—
The burden of my days is hard to bear,
But God knows best—
And I have prayed—but vain has been my prayer—
For rest—sweet rest.

'Tis hard to plant in spring and never reap,
The autumn yield;
'Tis hard to till, and when tilled to weep
Over fruitless field.

And so I cry, a weak and human cry,
So heart-suppressed—
And sigh, a weak and human sigh,
For rest—sweet rest.

My way has wound across the desert years,
And cares infest
My path, and through the flowing of hot tears
I plead—for rest.

'Twas always so—when but a child I laid
On mother's breast—
My weary little head, 't was then I prayed
As now—for rest.

And I am restless still; 'twill soon be o'er;
Life's sun is setting, and I see the shore
Where I shall rest.

Poor Thing!

Breathes there the maid with soul so dead
Who never to herself has said,
'Till I lay before I go to bed,
A prayer will I make—
If such there breathe, do mark her well,
She will be soothed and well,
And nothing can relieve her,
Her father may a plumber be,
Her mother for a housewife,
May flower grow each minute,
In vain for her no buds and roses,
But scornful smiles, and looks that freeze,
Proclaim she is not "well."

TWO NEW TOWNS.

Biwabik and Nichols Created by the County Board.

The board county commissioners, at its meeting yesterday afternoon, authorized the organization of two new townships, Biwabik and Nichols. The former is 58-16 and the latter 58-18. The first meetings in each township will be held May 25. The petition which was presented at the April meeting, asking that three additional townships be annexed to the town of Morse, was taken up and denied. A petition for the annexation of three townships to school district No. 12 was presented, but only two townships were given to it, 64-12 and 64-13.

The State bank and Security bank of Duluth and the Bank of Ely were elected depositories and the bonds of eleven banks were approved. The county funds were distributed as follows on April 28: American Exchange bank, New York, \$1883.89; First National, \$56,659.99; Marine, \$25,327.43; National Bank of Commerce, \$18,166.60; Security, \$12,833.68; American Exchange, \$20,010.81; State, \$2,681.55; American Loan and Trust company, \$20,492.12; Bell & Eyster, \$27,599.55; cash on hand, \$645,933; total, \$210,742.62.

The reports of several county officers were received. Superintendent Poirier, of the poor farm, reported 31 inmates on April 1, and 21 on May 1, 4 being admitted during the month and 11 discharged. There was paid out at the farm during the month \$166.68 for groceries, \$121.50 for salaries, and \$69.38 for repairs. The county physician reported 14 patients under treatment at St. Mary's hospital. During the month there was one death, 2 were sent to the poor farm, 7 discharged and 21 treated during the month.

A number of applications for reduction of taxes were received and several were granted and others denied.

A Fine Concert.

The Swedish Ladies did not have a large audience at the Temple last night, but gave a charming concert, their voices are remarkably well trained and harmonize as smoothly as could be wished. Either in American or their native song they are heard to equal advantage. Melvin R. Day gave some clever impersonations and recitations.

Miss Kennedy Tonight.

Tonight Miss Lillian Kennedy appeared at the Temple last night, and gave a charming concert, her voices are remarkably well trained and harmonize as smoothly as could be wished. Either in American or their native song they are heard to equal advantage. Melvin R. Day gave some clever impersonations and recitations.

A fine performance may be looked for.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN.,
May 7.—Fair weather prevails in all sections of
east, Kansas and Colorado this morning. Over
the latter states rain is falling, and indications
point towards another storm from that section,
but it is so unobscured by the clouds that it is
not possible to say whether it will be of any
importance. The temperature is below freezing.

An area of high pressure covers the entire
west, and the weather is fair and clear. The
light rain has fallen at scattered places dur-
ing the last twenty-four hours, mostly along the
lower lakes.

The temperature here yesterday was
small, the highest being 36° and the lowest 23°.
The rainfall and melted snow during yesterday
forenoon amounted to .02 inch.

DULUTH, May 7.—Local forecast for Duluth
until 5 p. m. May 8: Fair till Monday; slightly
warmer.

B. H. BROWN,
Observer.

WASHINGTON, May 7.—Forecast till 8 p. m. to-
morrow—Fair Wisconsin; fair, followed by
showers tonight or Sunday morning; warm
Sunday; winds becoming southerly. For Minne-
sota and the Dakotas: Generally fair, but with
occasional light showers this afternoon; warmer
Sunday—southeast winds, increasing.

IT MAY NOT BE HARRISON.

The story that President Harrison de-
clared at a recent cabinet meeting that
he would not accept the presidential
nomination if he could not secure it
without the votes of the Southern dele-
gations is important, if true. It is un-
doubtedly true that President Harrison
cannot hope to secure the electoral
votes of any Southern state. He must
depend solely upon the North for his
election, and it therefore would seem
eminently proper that the votes neces-
sary to nominate him should come from
Northern states.

But can he secure that number of
votes from the Northern delegations to
Minneapolis? They are not in sight at
this writing. It is true that many of the
state conventions have endorsed the
present administration, but it cannot be
forgotten that in 1884 similar endorse-
ments were given to President Arthur,
and yet he failed to secure the nomina-
tion. He was not particular either
whether the votes in the convention came
from the South or the North. The Blaine
men, or at least a large number of
them, have not given up hope that Mr.
Blaine may yet be induced to accept a
nomination. Colorado did not even say
a good word for President Harrison.
The tone of the Idaho convention was
decidedly hostile to him. Montana will
send a delegation that will vote for any
prominent Republican except Harrison.
It is no secret that the New York leaders
are opposed to Harrison, and are now
endeavoring to pick up some dark horse
that may seem a likely winner to start
him in the race against President Har-
rison.

It is no secret that Senator Sherman is
willing to accept the nomination, and
can command the votes of the Ohio dele-
gation, if he wants them. The report is
also current that the New York leaders
are looking with favor upon his candi-
dacy. Nebraska and South Dakota,
with twenty-four delegates, are the only
states which instructed for Harrison
which can deliver Republican electoral
votes. The Minnesota convention on
Thursday endorsed the Harrison admin-
istration, but it was noticeable that men-
tion of Blaine and McKinley created far
more enthusiasm than did that of Har-
rison. The delegation, which was not in-
structed, includes a number of men whose
first choice is Blaine and there was nothing
done in the convention which would
compel them to vote for Harrison. In-
diana, of course, instructed for Harrison
but it must be classed as a very doubtful
state, and of the other eleven states
which have instructed for Harrison nine
are surely Democratic states.

In all the uninstructed states, the feel-
ing is that Harrison's nomination would
be all right, but there is no enthusiastic
demand for it and the present tendency
is to look over the field with a view of
finding a leader who can command more
support. It will therefore be seen that
while a month or more ago the nomina-
tion of Harrison seemed a certainty, the
indications now point to the probability
of another being chosen at Minneapolis
to head the Republican ticket.

HOW DULUTH GROWS.

The report of the bank clearings of
the various large trade centers of the
country for the week ending on Thurs-
day last will draw renewed attention to
Duluth, because this city stands at the
very top of the list in percentage of in-
crease over the corresponding week of
last year. The increase for Duluth was
44.5 per cent, the total clearings for
the week ending May 5 being \$3,739,693,
which was only \$1,078,240 less than the
clearings reported by St. Paul, a city
claiming four times the population of
Duluth. Indeed, St. Paul's clearings

showed a decrease of 9.7 per cent in com-
parison with the corresponding week of
last year, so that should Duluth increase
as much as St. Paul remain stationary,
or even increase slightly in the corre-
sponding week a year hence, Duluth will
lead St. Paul in the total of bank clear-
ings. The increase of the clearings of
Minneapolis last week was only 9.2 per
cent, or one-fourth the increase credited
to Duluth. These comparisons will
show that in growth of business Duluth
is leading the procession.

Duluth is also growing rapidly in popu-
lation. The citizens themselves have
but little idea of how fast their numbers
are being increased, and yet the con-
stant growth of the city in population is
very great and if the present rate of in-
crease be maintained the prophecy of
Senator Davis in St. Paul on Thursday
that there will be 200,000 people here
five years hence will be more than ful-
filled. One of the surest indications of
this growth is the increasing demand for
school accommodation. The school
board is constantly engaged in an en-
deavor to find room for the children de-
siring admittance to the schools, and al-
though they are annually increasing the
capacity to the extent of sixteen to
twenty rooms the demand can hardly be
met. Today, despite the many large
and fine school buildings that have been
erected, there is not sufficient room for
the children who are knocking at the
doors for admittance. These are incon-
ceivable facts that speak eloquently
of the growth of population.

It now appears that the report from
Rome a few days ago that Pope Leo had
approved the Fairbault plan of merging
the parochial schools into the public
school system was incorrect, but to-
day's dispatches announce that the Fair-
bault system has been condemned by
the pope. This is to be regretted, as it
prevents an early solution of the school
problem. The pope's decision will be a
severe disappointment to Archbishop
Friedland.

The announcement that John G. Car-
lisle, the distinguished Kentucky sena-
tor, is a candidate for the Democratic
nomination for president, will be received
with pleasure by Democrats all over the
country, because they know that there is
no man in these United States who is
better equipped for the high office of
president or who would discharge the
duties of the position with greater
fidelity, wisdom and patriotism.

Looking across the bay at the prop-
erty of Duluth, the Inland Ocean of
West Superior says: "The cities of the
Northwest have never been so benefi-
ciently visited with prosperity and wealth
as in the year 1892. Never before have
they had so much money in their banks,
so much grain in their elevators, and
large stocks of merchandise in their
storehouses."

The Nelson men claim that the fact
that Governor Merriam seconded
the resolution endorsing Senator Davis
at the state convention shows that the
allied Nelson-Merriam combine never
existed. It does not show anything of
the kind. The governor merely bowed
to the inevitable.

The St. Paul Globe is now sorry that
it said before last Tuesday that a vote
against Bob Smith meant a vote against
Grover Cleveland. If Smith had been
elected, the Globe would have been all
right, but the trouble was that the voters
were nearly all Wright.

As an instance of the efficacy of ad-
vertising, the Atlanta Constitution, in
the case of Maj. Jones who advertised
for a wife last week and six hours later
got one, and a whole family thrown in,
and on the following day committed
suicide.

The report that the anti-Harrison men
have agreed on John Sherman for pres-
ident savor of an attempt to bull the
price of coal and give justification for
the recent advance by the anthracite
barons.

It is generally believed that the Pro-
hibitionists will again nominate ex-Gov-
ernor John P. St. John, of Kansas, for
president this year. The country can
therefore look forward to a windy cam-
paign.

The Melville W. Fuller boom for
president, after a deep slumber for
several months, has been revived. It is
probable, however, only that temporary
rally which frequently precedes death.

Now that there is a lull in politics, the
people will earnestly join in the hope
that the vested proprietor of the News
will give them another chapter of his
views on the servant girl question.

Mrs. Langtry is going to play the role
of an adventuress in a new drama called
"The Fringe of Society." If Mrs. Lang-
try will only act naturally she can be
very realistic in this play.

When Gov. Merriam finished his ad-
dress to the state convention on Thurs-
day a boomish delegate softly sang:
"Tara-ra Boom-de-ray!"

The new play, "The Check Book,"
should draw the crowds.

The schooner Grover Cleveland has
been lost at sea. Is this an omen?

HAD HER WAY.

Even Though the Flames Approached
She Didn't Hurry One Bit.
(Detroit Tribune.)

She looked very bewitching, standing
there before the mirror, in her ball dress
of soft, white, clinging stuff. A lovely
woman was she, and the stoniest of
cynics could not blame her for smiling
in admiration of her own beauty re-
flected back to her in the polished glass.
As she lingered thus there was a sudden
movement of feet in the hall below. She
listened.

"Charley mustn't get impatient," she
murmured. "I shall not be ready any
sooner."

With puff in hand she was enhancing
by a deft touch here and there the al-
baster whiteness of the glorious complexion.
A knock sounded at the door.

"In a minute," she sweetly observed.
"Tell Charley I'll be ready in just a min-
ute."

She was applying the puff with the
most engaging deliberation. The knock
was repeated louder than before.

"Run for your life," roared a rough
voice through the keyhole, "the house is
on fire."

She was looking archly over her shoul-
ders to gain a side view of her queenly
figure.

In a minute, she softly replied.
One of the golden tresses had escaped
from the restraining pins and hung
mockingly beside the shell-like ear.

"Dear me," she exclaimed petulantly,
"it does seem as if something must be
wrong all the time."

In readjusting her coiffure she dis-
lodged some of the powder from her
glorious cheek.

"Please take it, I shan't."

"Fire, fire," rang the distracted shouts
through the whole house.

"In a minute, I say. I do wish they
would be a little more patient."

Presently the damask of the fair coun-
tenance was restored.

"Break down the door."

It seemed as if many noisy men were
gathered at the very threshold of her
chamber.

"I'll be ready in a minute," she called,
in dulcet tones—tones that nature makes
her sweetest sound and places in the
throat of woman.

The fire is right under you."

"In coming directly."

With a last smiling glance at the
counterfeit of her beautiful self, she care-
lessly an old flannel gown, her snowy
shoulders and opened the door.

"I am ready."

The way obliged, the stairway being
burned, to carry her down a ladder, but
the triumph was hers. Neither man nor
the elements could make her hurry at
her toilet.

They Favor Kendall.

Brainard Journal, Dem: We learned
last Tuesday, during the Republican
congressional convention here, that there
is a very strong sentiment in that party
in favor of Hon. H. C. Kendall, of Du-
luth, as the congressional nominee. The
sentiment in favor of Judge Senie is
much weaker than we had supposed.

Not Making Promises.

Detroit Free Press: There's at least
one lawyer in Detroit who has his doubts
about the immortality of human affairs,
and he is a serious man with his wis-
dom in his custom to put on his office door,
when he is going out temporarily, notices
somewhat of this character:

"Come to lunch, back-in-half an hour."

"Come to court; back in three hours."

"Come out to see a man; back in ten
minutes."

And so on, as the circumstances may
require, and, as a prompt man, call him
review says there is a decided decrease
in the stocks of iron ore on the Lake
Eric docks.

LAKE FREIGHT MATTERS.
Rates are getting stronger but coal shippers do not advance.

A heavy movement of corn out of Chicago and the efforts of Duluth wheat shippers to forward a portion of the stocks in store there have resulted in a general lake freight market much stronger than had been expected at any time since the opening of navigation, says the Marine Review. Wheat is taking tonnage to arrive at 3 1/2 cents for wheat to Buffalo and the Chicago market holding at 2 cents on corn and shipper's rate advanced to 75 cents, and shippers have been wanting tonnage from all ports, but they are hoping that the rise in grain is only temporary. Wild veneers from Ashland could not be had at this time below \$2.25, but shippers are not disposed to compete with the grain in paying such figures. Additional sales of ore at prices covering the lake freight must be made before shippers can get against the grain to any great extent. In all quarters the importance of low water is admitted, however, and it is agreed that a reduction of full 15 per cent in all Lake Superior cargoes will about counteract the influence of new tonnage on the freight market.

Although Buffalo coal dealers are not disposed to heavy shipments, all boats wanting cargoes at the low freight rates have managed to secure them. The same has been the case at Ohio ports, and now when soft coal shippers have liberal supplies of coal and are anxious to move it, they find only one vessel to four or five cargoes. The local market is based on 40 cents to the head of Lake Superior and 50 cents to Duluth, have not advanced, but the tendency is in that direction. Some Cleveland vesselmen have been considering the question of an agreement between a dozen or more of the large owners, to refuse to carry any coal for two months or more to come. Such an agreement would certainly be felt, but it must be considered, of course, that an increase in the number of vessels running light would tend to depress grain and ore freights. The complaint of the vessel owners is against coal for the reason that, although it has always been carried at no profit, the shippers of the bituminous article are endeavoring this season to hold lake freights down by fixing maximum rates from time to time during the season and agreeing to pay no more than these set figures.

The Youghiogheny Sells.
The large piece of dock property at West Superior at the entrance to Tower bay slip, belonging to the Youghiogheny River Coal company, has been transferred to the W. L. Scott company of Erie, Penn., the consideration being \$500,000. It is one of the finest pieces of dock property in Superior and was obtained by the company under a verbal promise to improve it, which was never carried out. It is not believed that the sale had anything to do with the Reading combination. The Northwestern Fuel company represents the W. L. Scott company at the head of the lakes. The sale does not necessarily mean the improvement of the property.

The library board met last evening and re-elected George Spencer as president. As vice-president Right Rev. Bishop McGovern was elected to fill the vacancy caused by the retirement of L.

A. Barber. The committee will be named at the next regular meeting.

ELECTRICAL WORKERS.
The Duluth Union joins the International Brotherhood.

Grand Organizer T. J. Finnell, of Chicago, of the International Brotherhood of Electrical Workers, addressed a large meeting of linemen and wiremen last evening at Parson's hall. Mayor d'Autremont was present and made a short address, commending the idea of organization and urging that organized labor must be properly controlled in order to merit the good opinion of citizens. Mr. Finnell then addressed the meeting on the International Brotherhood of Labor and J. H. Baker, the Duluth Union of Linemen and Wiremen then joined the international association and elected the following officers: President, J. J. Kennedy; vice-president, J. D. Hays; recording secretary, E. A. Newell; financial secretary, W. A. Wainock; treasurer, F. A. Johnson; foreman, C. Hynes; inspector, James Owen.

Municipal Court.
Deputy Clerk Tischart is still filling the vacancy caused by the illness of Clerk Grady who will probably not be able to return to duty for some time. Mr. Tischart says the statement, that he had a Prince Albert coat stolen is incorrect as he never had such a garment. Before his honor Judge Powell, Steve Harper was sent up ten days for being drunk in default of a \$10 fine. Frank Clark, a vag, got five days in default of \$3 fine.

Improving the Road.
Three or four crews are now at work improving the Mesaba county road, but it is still in very bad condition and almost impassable for teams. The county appropriated \$500 for repairing the road and this will put it in pretty fair shape although not as good as the travel would warrant.

Port Arthur and Isle Royal.
The fast steamer H. R. Dixon, of Booth's North Shore line, leaves the company's dock on Lake avenue, Sunday morning at 10 o'clock sharp for Port Arthur, Isle Royal and all intermediate points on the north shore. For freight or passage apply at the company's office, 519 Lake avenue south.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

To Agents.
Of the Northwestern Benevolent society (Accident Insurance company) of Duluth. It is one of the finest pieces of dock property in Superior and was obtained by the company under a verbal promise to improve it, which was never carried out. It is not believed that the sale had anything to do with the Reading combination. The Northwestern Fuel company represents the W. L. Scott company at the head of the lakes. WEST DULUTH BOOMING

The Marinette Iron Works Has Received a Very Large Order From the York Steel Plant.

It Will Keep a Large Force at Work Nearly the Year Both Night and Day.

Rev. William Moore Has Accepted a Call From the Congregational Church at Little Falls, Minn.

The Marinette Iron Works company has received the largest order ever placed upon its works. The work consists of four big engines, besides other machinery, small castings, shafting, etc., and is for the York steel plant. This order will keep a large force of men at work the greater part of the year, and the shops will probably have to work night and day to keep up with orders that are coming in from all over the country.

Fred McDonald and family have moved to Lester Park.

The Ladies of the Congregational church very pleasantly surprised Mrs. William Moore, wife of their former pastor, by presenting her with a purse of money as a token of their esteem and good will.

Two plain drunks visited his honor this morning and one left \$10 in the treasury while the other will do ten days in the county jail.

Rev. William Moore has accepted a call from the Congregational church at Little Falls, and will move to that place next week.

Charles Woods, an extensive lumber jobber of West Branch, Mich., was the guest of his old time friend, G. J. Malloy, yesterday.

Robert Cowen of Cooperstown, N. D., is a guest of his brother Frank at this place.

Robert Bailey, band mill expert, employed by the Marinette iron works, came up from Marinette yesterday.

Joseph Gadow, of Aitkin, is a guest of Wm. Dalcur.

H. K. Hanson, of Stillwater, is in the city looking after his property interests.

The car works has received a large order for ore cars for the Wisconsin Central railroad.

Patrick O'Haire and family, of West Port, Ont., arrived yesterday and will locate at this place.

K. O. Balaban leaves in a few days for the Red River valley.

Church Notes.

MODES FOR FAIR ONES

Hats and Bonnets Continue to Blossom Out in Newer Beauty and Also in Many Old Styles.

The Grace of Spring's First Hats Combined by the Milliner's Good Taste and Novel Ideas.

Charming Spring Costumes That Have Been Evolved From the Creative Imaginations of the Milliners.

A stylish jacket made by Worth has open fronts sloping away without once meeting—a charmingly cool fashion for spring and summer—and disclosing the pretty corsage beneath. It is made of beige-colored cloth trimmed with white embroidery and lace. Sheer wool crepe is used for similar jackets for midsummer, and is commended for its light weight; a lining of taffeta silk gives it durability. Revers of velvet with the new applique leather trimmings are added.

The hat with the tube-shaped crown is Vior's latest summer fancy. This novel crown, standing four inches high near the back of the brim, is smoothly covered with green velvet on the sides, and brim of black straw may have either green or black facing. The trimming is a low broad bow of black satin with folded loops attached by a diamond buckle, holding curled black ostrich tips close against the velvet crown. These fishing hats are to be worn with various light costumes throughout the spring and summer, at afternoon weddings and receptions, and for driving in the park or out of town.

Fashion's Fancies. Almost all the French gowns continue to be trimmed with lace.

Colored stockings of every shade are shown more frequently than black. Biarritz kid gloves come in most fetching shades of pale green, lavender, yellow and bright red.

Dress trimmings are more costly than ever. Embroideries of every design cover the bodices and edges of the skirts.

Newest fillets have small crowns or other ornaments attached to the point instead of presenting a plain surface.

Flower hats have brims of posies, the stems being twisted up and woven into a peaked crown that is only a tiny point.

One of the queer combinations that will be catchy is jet and rhinestones mingled for hat crowns or dress trimmings.

An acceptable gift to a girl is a gold buckle. They are worn on belts or at the throat or on the hat with equal propriety and effect.

Improvements in chiffon show most bewitching more patching in narrow stripes, the ruffling being arranged in good sized lobes.

Silk chemises for wearing with blazer suits have become a fashion down the front and end in a belt of cross-way bands that overlap in a point.

A pocket opening on the side of the skirt is simulated in many new dresses and buttons and narrow frills or gimps trim them frequently.

Figure jackets are quite the proper thing, but they are always accompanied by the horrible suggestion that it is a made-over or tinged gown worn under it.

Rosebud is the name of a new veiling that has tiny buds in pink, red, and yellow scattered on a dark background, with a solid border an inch deep of buds.

The woman with a long and pointed nose will have no trouble in whatever to do with pointed crowned hats. Adaptations of the Alpine crown and brim are seen everywhere.

The latest wrinkle in watches show your father's or lover's face photographed on the outside back cover. The former is safer, as it doesn't necessitate so many new timekeepers.

Double sleeves appear on new gowns, the outer one only coming to the elbow, and the imported street gowns show many single sleeves that are much shorter than the recent style, extending only a trifle below the elbow.

The silk scarfs of the winter have increased in size for the summer, and will be worn tied in picturesque bows, with all sorts of dresses. One good pattern was crosswise over an inch apart.

Plenty of ribbon is used for bodices, and one of the prettiest styles show it in the arm to the waist line. A row of small bows is fastened on each ribbon band both in the back and front.

Sashes of every conceivable shape and color are in vogue. The bow at the back between the shoulders appears on many dresses or wide ribbons are twisted about the waist. A wide sash in empire style is brought to the front and tied below the heart.

Yokes and trimmings to imitate yokes are the favorite for cloth and silk costumes. The style that has been generally adopted shows the top part of the full and deep ruffle bordering the lace yoke. It is very becoming.

Tan-colored leather-covered tablets have a fleur de lis in one corner and a large leather strap from a larger leather de lis pin. New card cases come in all the delicate shades of pale pink, blue, mauve, green, and lavender, with edges bound in silver or gold, or when plain, have a dainty gold or silver knot poised lightly on one corner.

A decided novelty in bonnets is the Victoria, a reproduction of an 1841 ward ten inches wide, and is made of black tulle, edged with jet. It has black ribbon strings and a deep veil strung on an elastic, and when the wearer wishes to be seen she pulls the veil aside. It smacks of days of yore and is too much like the Salvation Army regalia.

The Difference. Kate Field's Washington: Little Mary—What's the difference between my mother and my uncle? Little Flossie—"I don't know." Little Mary—"Well, one is my mother's mother and the other is my mother's brother."

HOUSEHOLD NOTES.

Suggestions That May Prove Valuable to Housewives.

The annoying black lead dust that arises when polishing a stove with ordinary stove blacking may be prevented by adding a pinch of powdered gum tragacanth to the blacking.

To give a good oak color to a pine floor, wash in a solution of one pound of copperas dissolved in one gallon of strong lye.

A simple and effectual pen-wiper is made of common bird shot. Any little china or bronze jar will do for the receptacle and it may be as picturesque as fancy dictates. Fill it with the shot, and to clean the pen, thrust it up and down among the little leaden balls. No cambric or cloth pen-wiper polishes the steel so effectually and readily as this.

The little jar of shot will also act as a paper weight if needed.

To remove ink stains from the fingers moisten the spot and rub it gently with the head of a parlor match, keeping the skin wet, and the stain will rapidly disappear.

If troubled with headache try the simultaneous application of hot water to the feet and back of the neck.

To take off wall paper previous to painting or papering, wet the old paper thoroughly with a long-handled brush dipped in warm water. Let it rest until the water has penetrated it and the paper blisters and loosens, when you can peel it off with your hands. Do not wet too much at a time. If any small bits are found still adhering, wet them afresh and scrape them off with a strong knife.

To prevent fruit juices from soaking through the bottom of crusts of pies, first moisten the crusts with the beaten white of an egg before putting in the fruit.

CARE OF THE TEETH.

Some Sound Advice Which All Should Heed.

"Preach, preach, preach" is what we hear you say when you commence these lines, but preach we will if only one girl with an otherwise perfect face will take the warning and give the needed attention to her teeth, which uncared for, make her hideous, no matter how regular the features, limped the eyes or white the skin.

It really seems astonishing that in this age, when women are rushing madly into every species of exercise and training to develop their beauty, they display a carelessness in regard to their teeth that contrasts all their activity in the other directions.

Look out, girls, store teeth are not nice to look upon and decay gains faster than you can possibly imagine. Clean teeth mean strong teeth. Pans of food must be thoroughly removed or they will eat into the enamel and aching teeth, unsightly cavities and finally a false set supplied, is the inevitable result of lack of attention in this direction.

Charcoal, common salt and powdered chalk are cheap and efficacious tooth powders. After each meal run a white silk thread between the teeth and clean thoroughly. If tartar appears, brush toothpick with a bit of cotton attached, dipped in peroxide of hydrogen, and rub it over the teeth, changing the cotton each time after using. Do this and your improved appearance and general health will amply for the trouble you must take.

ODD SUPERSTITIONS.

Curious Belief of Many Well Read and Cultivated People.

Much as we scoff at it in others and absolutely deny it in ourselves, the fact remains that even an Anglo-Saxon superstition, perhaps not larger than a mustard seed, but nevertheless a grain, lurking in the minds which no amount of hard business sense can exterminate.

Queen Victoria believes that articles made by the blind will bring good luck and patronizes liberally all their industries.

James G. Blaine carefully avoids walking under a ladder, though he laughingly disclaims any belief in the superstition attached to it.

Lord Tennyson carries a horse chestnut as an amulet against rheumatism. At any wedding the throwing of a shoe for luck is but the relic of an Anglo-Saxon custom, though in other days the bride's father delivered the shoe to the husband, who touched her with it on the forehead to denote his authority over her from henceforth.

It is said that Marie Jansen, the singer, treasures a grave-digger's rabbit's hind foot and attributes her rare good luck to the possession of Bernhardt, every one knows, is full of superstitious ideas and weird fancies, and takes no pains to hide the fact. Every time you go you note the prevalent epidemic, and though it may not be ostentatiously displayed, still it is a part of the avoidance of car or luck of a pin, or the belief in an itching palm. I would take a page to tell in detail the many, many superstitious ideas that are part and parcel of the modern man or woman.

Happy People. (New York Herald.) Happy the people of a country town. Easy and light the burden each one bears. They seem to hate no burden of their own. So fond are they of their folk's affairs.

The Christian Endeavor Movement. (Cleveland Leader.) Who shall say what such a movement will produce in a generation, in a century? The forces of evil are often emphasized. What of such a force for good, assisted by earnest, enthusiastic, aggressive young people? Truly there is the brightness of a great hope and a great promise in it. Within the year just closed the number of societies has increased more than thirteen per cent, and the total membership ten per cent. The army grows in numbers daily and its spirit becomes stronger as its circle of influence widens and its membership increases. Wise men have often said: "Interest the young people, convince them, and you have won the world with a generation." That is a nutshell of what the Christian Endeavor movement seems to be doing.

A Source of Trouble. (Truth.) The stitches one gets in his side. Which for the time his joys becloud. May to his neighbor's grief be sold. By being lammed in by a crowd.

A HANDSOME BUILDING

The Structure Erected by Minnesota at the World's Fair Will be a Thing of Beauty.

Description of the Building, Which Will be Two Stories High and in Italian Renaissance Style.

A Perspective View Taken From the Main Avenue of the Grounds to the State Buildings.

The commission to prepare plans and specifications for Minnesota's state building at the World's fair in Chicago has been awarded to W. Channing Whitney, a Minneapolis architect, and The Herald, through the kindness of the St. Paul Globe, is enabled today to publish a sketch of the adopted plans. The cost of the building will be about \$25,000. Mr. Whitney has gone to Chicago to examine the site, and he expects to prepare the specifications at once and be able to advertise for bids from contractors with-

in two weeks. The Italian Renaissance adopted for the design was in harmony with the best buildings now designed for the exposition grounds, and for the position awarded to Minnesota it seems to be the style best adapted to carry out the ideas adopted by the general commission. The framework of the building is to be of wood covered with stuff to give the effect and character of stone construction, and the roof will be covered with tin, moulded and painted to carry out the effect of Spanish tiles. The first floor is raised only three steps from the grade of the ground, to afford easy access to the building.

The perspective view is taken from the street corner, as seen in approaching the building from the fair grounds by the main avenue to the state buildings. The elevation shown is that of the side opposite the main entrance. The side not shown by the drawings is similar to that of the side view on the perspective. The entrance is through a portico having rusticated dome columns, and on the east platform at either side of the portico are statues on square pedestals representing the original owners of the country and the early settlers of the state, the Indian on one side and the pioneer lumberman with his axe and rifle on the other. Over the roof of the portico can be stretched an awning to afford shelter as a smoking loggia and place of observation. In the spandrels of the arches of the loggia between the two wings are shields with the coats of arms of the state of Minnesota and of the United States.

Entering the building directly into the main exhibition hall, which is 67 by 70 feet, space is afforded for the display of the state's resources. The hall is 18 feet high and will give opportunity for a symmetrical and attractive arrangement of cases and exhibits. A broad flight of stairs, starting opposite the main entrance, leads to a landing which has a domed semi-circular alcove, with a seat for resting place. Under the stairs are the coat and check rooms, if such are desired, and on the right of the staircase a superintendent's room, with toilet room, and connecting by passage under the stairs with the room for the bureau of information and postoffice on the other side of the building. Over these two suites, in a Messanine story, are two double and two single rooms for the employees, with bath rooms attached.

This arrangement requires two short flights of stairs, but the employees' rooms are near their work and are entirely out of sight and are out of the way of the public. The main stairs, running in two flights from the laundry, enter the large reception hall, which is made the most imposing in effect of all the second story rooms, by the use of this large general reception room the ladies' and gentlemen's reception rooms could be made smaller than required by the rules given. The total area of these three rooms is larger than that of the two called for by the commission's instructions. The grand hall is a symmetrical room with a colonnade at the rear opening on the staircase, and at the front by an archway and passage opening to the loggia and balcony. On either side are the reception rooms devoted to the ladies and gentlemen. On the front corner, which is also the street corner, is a room for the board of commissioners. The room for the ladies' auxiliary board is in front. The ladies' reading room is connected by double doors with the reception room and in the rear of this suite are toilet rooms. The guests' rooms are provided in the rear of the ladies' apartments, which are entered through a private hallway.

At Home Days.
"At home" days are beginning to go out of fashion and the women who held them with irritating regularity once a week are now reducing them to once a month and a few of those who fondly thought most irksome have with admirable cuteness fixed them on "fifth Mondays," "Tuesdays," etc., to limit them to one day in two or three months. One lady who had become particularly annoyed at missing all the best things of the week, and which she declares came always on "her day," for the sake of seeing a lot of people she didn't want to see and receiving

a shower of postcard from the friends she did want to see, says that next year she is going to observe as her "at home" day "the second Sunday in the week."

First Love.
(Elizabeth Cherry Halse.)
Oh! gray eyes, full of love, of light,
Look back with me to that first hour
When Daylight, in the arms of Night,
Left one soft tear in every flower,
The stars came out to light our way
Across the meadow we went o'er
Oh, love! Oh, love! can that sweet day
Return no more—no more!
If I could have but one dear beam
In all my life it would be this—
That hour, that hour that fled so soon,
The ecstasy of your first kiss.
Oh! left me now, and love and thought
Grow colder—oft my heart is sore,
For the soft peace that moment brought
Return no more—no more!

Often Longed For.
Good News: Little boy (pointing to window of rubber store, "What's them?"
Mamma: "Those are diving suits, made of rubber, so the diver won't get wet."
Little boy: "I wish I had one." Mamma: "Why, what for, my dear?" Little boy: "To wear when you wash me."

Swift Detection.
New York Weekly: Mrs. DePretty: "Horror! That woman who just passed is a young man in disguise." Husband: "Well, well, how do you know?" Mrs. DePretty: "She looked at my face instead of my dress."

Josiah Wants That Lantern Returned.
Mount Carroll (Ill.) Democrat: At the Prohibition meeting Wednesday even-

ing of last week somebody carried off Josiah Schamel's lantern, and he wants it returned. If this is done no questions will be asked, but if it isn't returned Joe says he proposes to find it. He thinks it was taken by someone that went out just before the collection was taken up. Bring it back. It wasn't Joe's anyway—he had borrowed it from George W. Stitely—and if you don't return it he'll have to buy Mr. Stitely another one.

Whitman's Legacy.
Walt Whitman leaves as his legacy to future times his "Leaves of Grass," the authorship of which cost him his position in the interior department.

SHE LACKED EXPERIENCE.
The Thrilling Desire of a Girl to Know the World.
(Detroit Tribune.)

Two lovely girls, society debutantes, lounged languidly in the elegant boudoir. Daintily arrayed in morning robes of cream and white, they were like two fabled princesses in their own matchless beauty and in the sumptuous luxury of their surroundings. Nature had showered her choicest blessings upon them, and fortune had made them her beloved children.

"They were talking."

"After all," musingly observed the fair creature whose golden tresses were caught in a bewitching Psyche knot, "I feel that I have not seen the best there is in life."

With a half-suppressed sigh she clasped her hands and gazed in dreamy discontent into space.

"I don't understand you."

The willowy figure of the darker girl leaned in careless grace against the divan, and her brown eyes were turned toward her companion in mild surprise.

"I don't know the world as I should."

She spoke with a tinge of impatience, and the clasped hands were pressed together more tightly.

"Don't know the world?"

The brown eyes grew large with astonishment.

"No, I feel that I am too innocent."

"But you have been out several slumming tours?"

The fair head was slightly inclined in acquiescence, while the full red lips curled with scorn.

"Yes," mockingly, "I have been slumming."

"And you have carried flowers to condemned murderers?"

"I have."

"And you have bet on horse races?"

"Many times."

"And you have taught a class in Chinese mission Sunday school?"

"Yes, yes, all of that."

For a moment the dark beauty stared in silence.

"And still—you think—you don't—know the world," she murmured at last, wondering and incredulous.

The other rose to her feet in sudden animation.

"I lack experience," she passionately exclaimed, "oh, how woefully!"

Advancing a pace she stood before the mirror and gazed bitterly at the reflection of her magnificent figure.

"I have never yet," and her voice had a hard, metallic, hopeless sound, "been awakened from my dreams to find the house on fire."

The hot blood was mounting to her cheeks.

"With escape cut off by the flames; to shriek with fright and—"

Her form was dilated with excitement.

"Give myself up for lost; to be—"

She was growing hysterical.

"In the nick of time wrapped in a blanket and carried down a ladder by a real, live fireman."

She wanted to cry, but a few whiffs of sal volatile changed her mind.

The Weather.

D. S. WATKINS REPORT, DELT, MINN., MAY 8.—A storm of considerable energy is central over Missouri this morning and another is forming over Montana. Rain and snow has been falling over the southwest for the last thirty-four hours and still continues, having been heaviest over South Dakota, Illinois and Missouri. The temperature remains nearly stationary, ranging from 35° in the North to 55° over Missouri.

Two stations, Buffalo and Helena, report clear weather this morning, and the remainder of the state cloudy, with the remainder of the day it is probable that the storm will advance so as to bring light rain to this section by tonight at any rate, there will be continued high east to northwesterly winds in the vicinity. The temperature rose slightly here last night, being 1° higher this morning than it was at the warmest time yesterday.

DELTA, May 9.—Local forecast for Duluth until 5 p. m. May 10: Fair, probably followed by rain, clearing, Tuesday slight change in temperature; east to northeast gales.

R. H. BRONSON, Observer.

WASHINGTON, May 8.—Forecast till 5 p. m. tomorrow: The storm has moved from Oklahoma to Eastern Kansas, causing rains in Missouri, the Red River of the South and the Middle Mississippi valley. The clearing condition has remained nearly stationary over Lake Superior. Fair weather may be expected in the Atlantic states, increasing cloudiness and showers in the lake regions. The rivers are above the danger line and rising. For Wisconsin and Lower Michigan: Showers, northeast gales. For Minnesota and the Dakotas: Light showers, east gales.

A CHANGE OF SENTIMENT.

The news of the laborer article yesterday seeking to show that Knute Nelson is certain to be the Republican nominee for governor this year, and that the sentiment of the Republicans is overwhelmingly in his favor. In support of this contention it quoted some figures from the Minneapolis Tribune giving the results of interviews with delegates to the recent convention at St. Paul.

The Herald, as an independent newspaper, has an important mission to perform this year, and that is to keep the high-sounding party organs, whether Republican or Democratic, to the straight facts, because it is a sad fact that the party organs are given to considerable romancing when necessary to aid their cause. The Herald, in pursuance of this mission, has already punctured the "availability" bubble, which arose from the Nelson camp, and has shown that the Alexandria statesman's friends have overreached themselves on the "nationality" business, the very people whose votes his nomination was to secure have repudiated him. The Minneapolis Tribune's little table of preferences by the delegates to the state convention was no doubt very pleasing to the Nelson boomers, but there is really nothing in it. The number of delegates interviewed by the Tribune formed but a small fraction of the convention and evidently a special effort was made to see mainly those favorable to Nelson. This is an old trick that has become very transparent in recent years, and is now rarely resorted to. The fact that it was employed by the Tribune shows that the Nelson men are ready to clutch at the most flimsy straws. The fact is that there were fully as many anti-Nelson men in the state convention as there were friends of "the little New Englander." Several weeks ago a canvass of these same men would have shown a large majority in favor of Nelson. Time, however, has worked a change. Reflection has convinced many men who were booming Nelson that he is not the strong man they supposed, and they have accordingly decided to look outside of Alexandria for gubernatorial timber.

A prominent delegate from Benton county was interviewed in Minneapolis on Friday and this was what he said: "A few weeks ago it was all Nelson. I believe if the convention had been held at that time that he would have been nominated without a question, but the Nelson enthusiasts have about spent their time. It is now a question who stands best, Nelson certainly does not stand best, he did a few weeks ago. Nelson was in St. Paul yesterday, I have been told, but he did not go near the convention. Lind made a good impression on the delegates and country delegates who attended the convention. Lind, Ives, McGill and Nelson stand pretty nearly neck and neck in the race in Benton and Mille Lacs counties today, I should say."

These are two counties which were reported to be among the most pronounced Nelson counties. A Lyon county delegate said the sentiment among the Republicans there is against Nelson, and yet Lyon county has been claimed by the Nelson boomers. The Republicans of that county do not consider him a straight Republican and they believe that only consistent Republicans should be nominated by the party this year. Referring to the attempt to have the state convention endorse Stanford Newell for national committeeman, the St. Paul News said:

"To many in the convention this defeat of the 'Merriam kids' and the only made a good impression on the Nelson boomers, but there is really nothing in it. supporter in the state. The Herald would be sorry to see its tender contemporary bearing the brunt of a hopeless fight alone, and it therefore presents these facts with the hope that their study will give the News a good excuse for a change of ground.

CLEVELAND MAY DECLINE.

The most important piece of political news so far this month is a statement credited to Henry Watterson in today's dispatches that Grover Cleveland is now seriously considering whether his nomination would be judicious, either for the party or for himself, and that he may, as a result of this consideration, decide to write a letter of renunciation to the Chicago convention, because he cannot command the vote of New York and therefore cannot be elected.

Mr. Watterson, as is well known, was formerly a warm supporter of Mr. Cleveland, but for some time past he has been opposing his nomination, because, he contended, New York would, in that event, be lost to the Democracy and the Republican candidate would be elected. Where he has obtained his present information regarding Mr. Cleveland's intention is not stated, but Mr. Watterson does not publish rumors haphazard, and it may therefore be taken for granted that he has some good basis for the statement "that nothing is more likely than Mr. Cleveland will have a letter of renunciation at Chicago."

It will be remembered that Mr. Cleveland, in a letter to a supporter not very long ago, declared that he had misgivings as to the wisdom of again becoming the Democratic candidate. Mr. Cleveland is not the man to take the nomination of the sea defense stirring him in the face. With the present state of affairs in New York, neither Mr. Cleveland nor Mr. Hill can with any degree of certainty declare that he could carry that state. The internal dissensions in the party are too great, the feeling is too bitter, to admit of a united party in New York, with either Cleveland or Hill as the candidate. Mr. Cleveland knows this and foresees the hard fight that would be necessary in his party to secure the electoral votes of the Empire state. There has been nothing happened since he wrote the letter referred to to remove the misgivings which he then experienced, and Mr. Watterson may be right when he says that the president is considering whether he can afford to make the race.

Victoria Woodhull Martin and Tennessee Claflin Cook having sued the Chicago Mail for \$500,000 damages for libel, the Mail characterizes it as "merely the impudent bluff of a couple of loose women of bad reputation for both chastity and honesty," and it produces several old indictments to back up its assertions. The Mail challenges them to take the case to trial. The Claflin family is evidently surprised that the bluff did not work.

Referring to the candidacy of Lieut. Governor G. S. Ives for the Republican nomination for governor, the Fairmont Sentinel, edited by Senator Frank A. Day, says: "His nomination would mean a united and enthusiastic party and a clean-cut campaign without one word of defense or unpleasant explanation."

The Grand Forks Herald asks: What will be the political complexion of the next congress? All who are not prophets will wait until the returns are in, before answering this question.

"What is the issue of the campaign in Illinois this year?" queried the Chicago Mail. Probably the same as in past years—the offices.

Editor Dana, of the New York Sun, appears to be afflicted with political strabismus.

AMUSEMENTS.

"The Duffs in 'Paola'" The Duff company was again greeted by a good audience Saturday evening when "Paola" was presented and their production of this pretty opera was fully as satisfactory as that of "The Queen's mate" Friday evening. Miss Helen Bertram, the prima donna, captured the audience completely and Miss Letitia Girard was equally as charming. John J. Raffael made an excellent Lucian and his singing was particularly fine. Richard Carroll in the comedy part was very funny and made a great hit. The company returns again this week appearing at the Temple Saturday afternoon and evening. At the matinee "Paola" will be sung again, but in the evening "A Trip to Africa," one of the finest operas in the Duff repertoire, will be put on.

"She Couldn't Marry Three." "She Couldn't Marry Three" drew a fairly large audience at the Temple Saturday evening, but the play was a disappointment. It is a conglomeration of melodrama with an abundance of blood and thunder and farce comedy, with plenty of horseplay. The usual villain gets in a large amount of work and is beautifully foiled and made to appear in a very despicable attitude at the end. There is considerable in the play that is rather vulgar and might better be eliminated. Miss Lillian Kennedy is a clever little soubrette and should really be given a better play. Her brother, John J. Kennedy, is also capable of good work.

Cancelled "A Cold Day." Manager Condon has cancelled the engagement for this evening of Fisher's "A Cold Day" company. He learned that a number of the best people have left the company within the past two weeks and that the organization is badly weakened.

"Flirts and Matrons." Jennie O'Neil Potter, the bright little woman, who gives such a pleasing entertainment in the monologue "Flirts and Matrons," will be at the Temple Wednesday evening. Miss Potter is an excellent reader and receives the highest praise everywhere she goes.

The Hoosier Post. James Whitcomb Riley, the Hoosier poet, will be seen at the Lyceum Thursday and Friday evenings. Of him William Dean Howells has said: "The fact

is, our Hoosier poet has found lodgment in people's love, which is a much sater place for any poet than their admiration. What he has said of very common aspects of life has endeared him; you feel, reading his verse, that there is no other honestest souls that ever uttered it—self in that way, and that he is true to what we all know because he has known it, and not because he has just verified it by close observation."

FOURTEEN YEARS OF SUFFERING.

Mrs. Shoemaker's Experience in the United States and Canada. A letter was received at this office a week or more ago, says the Detroit News, which contained statements of so positive and surprising a nature that it was thought best to make a thorough investigation before publishing it. The writer of the letter is Mrs. S. Shoemaker, who now lives at Elkton, Mich., but whose home was for nearly twenty years in the village of Duart, Ontario. A thorough investigation has been made, and it can be positively stated that the circumstances, as she describes them, are true. They are vouched for as facts by J. C. McDonald, Esq., justice of the peace, and C. Elford, postmaster, both highly esteemed citizens of Duart. Mrs. Shoemaker's letter is published as she wrote it, and deserves attention.

ELKTON, Mich., May 5, 1892. To the Editor of the News: Much as I dislike the notoriety of seeing my name in print, I feel forced to let the world know of the remarkable things that have happened to me. For fourteen years my life has been one of misery. My nerves were completely shattered, and at times it seemed as though sleep had gone from me forever. For four years I did not have one good night's sleep. My appetite was variable and food did not digest. My heart was so weak that at the least noise excitement it almost stopped beating. Life had no pleasure for me, sad and gloomy forebodings were always present. I was troubled fearfully with female weakness, dizziness, nervous headache, poor eyesight, constipation, trembling of the limbs, and so many other grievances that my pen cannot write them.

I tried many kinds of remedies until I had lost faith in all medicine. When I was in the depths of despair I happened to hear of Faine's celery compound. From what I heard I was inspired with fresh courage and hope, and I commenced using it. By the time I had taken a dozen bottles I was once more strong, able to do my own work on a farm. To-day I can eat anything from pork to pastry without it disagreeing with me. Everyone in this village knows how I suffered and how Faine's celery compound cured me. It changed me from a helpless, despairing woman to my present state of health and strength. I hope you will publish this letter and spread as widely as possible the knowledge of a means that will bring health and happiness to homes where sickness and suffering make life a burden.

Yours truly, MRS. S. SHOEMAKER. Investigations prove that Mrs. Shoemaker's statement is vouched for by many of the best citizens in Huron county. Charles Dorman, a druggist in Elkton, told the News representative that Mrs. Shoemaker's statement was true, and that Faine's celery compound had effected many almost as marvelous cures in that section. The discovery of Faine's celery compound has certainly marked a new era in medical science. It is a pure food for nerves, brain and blood, and gives strength and vigor to those who use it.

A LEVEE HAS GONE

The Most Important Levee on the Mississippi River Has Been Broken Away.

Water Will Now Pour Into the Country From the River to the Gulf.

The Damage Will be Enormous and May Reach Nine Millions of Dollars.

NEW ORLEANS, La., May 10.—The news of the breaking of the Morganza levee, which reached here late last night, caused considerable excitement. This is the most important levee of the Mississippi river and, in fact, is the largest in the world. It is the key levee to the whole state. It is situated near Point Coupee, in the very center of Louisiana. Its break is an awful calamity, for its situation is such that it is utterly impossible to close any breach.

The river is tremendously high at present, and for the past week grave fears have been experienced in all directions. Constant watch, night and day, has been kept on the weakest levees. The Morganza was the strongest of them, and there can be no crops this year. No particular has yet been received. Great fears are entertained for the towns and villages in the line of the flood.

The raging Mississippi has reached the danger point at this city and after a lapse of several years again threatens inundation to the large and fertile. Snyder bottom of Pike county, Ill., opposite this city. The Snyder levee, which alone prevents the mighty father of waters from destroying thousands of acres of growing cotton and rice, hundreds of farmers from their homes, is now in serious danger from the continued rise in the river. The strong east wind of the past two days has driven the waves and drift to the Missouri side, and has materially assisted in preventing a break in the levee, but should the rise continue, the river would sweep the whole of the state.

Already the people in the bottom are becoming alarmed and are crossing to a point below the river with their goods. Word was sent to this city for assistance in ripparing the levee at a point below Chicago and Alton railroad bridge. The lowlands around this city are submerged, and the Crawford lumber company is experiencing serious inconvenience therefrom. This company's planing mill furnishes power for the incandescent electric light plant, and the overflow threatens invasion to the power house and the shutting off of the light. The Burlington road has a force of men at work ripparing its embankment just below this city.

The breaking of the great Morganza levee in Point Coupee parish is the greatest misfortune which could have happened the levee below Chicago and Alton. St. Mary's parishes, and may flood all the country between it and the gulf. A crevasse will stop the Southern Pacific and Texas Pacific roads. The situation is regarded as most serious.

The great volume of water from the Upper Mississippi and Missouri rivers has not yet reached here. When it strikes the other levees, which are already weakened by the late heavy rains, the result cannot fail to be widespread desolation and the ruin of many lives. Madison and other upper parishes the water is now even with the tops of the levees. In Mississippi thousands of acres are already under water, and the inhabitants, having abandoned their homes, have taken refuge in Vicksburg, Natchez and other cities. Rank continues to fall which increases the danger of the situation.

At noon today the river at this point rose three-tenths of an inch. The water is now running over the wharves and through several of the downtown streets. The levee below Chicago and Alton is washing badly, but the new levee that protects New Orleans from the overflow is holding well. No apprehension as yet is being felt as to the safety of the city, and it is believed by tomorrow that the crisis will be passed. Reports from up country state that levees so far are intact. The report that Morganza levee broke is a canard.

THE FLOODS IN TEXAS.

Red River is Leaving Its Banks and Causing Damage.

PARIS, Tex., May 10.—The rains in the past few days have been almost unprecedented in this section. Red river is now beginning to leave its banks with a big rise reported to be following from above. There will be great overflow and much damage to property.

A Denison dispatch says: This section of the state is fairly inundated today. The river is rising rapidly. All the houses in the bottoms are under water and the occupants have taken refuge on the bluffs.

The train on the "K" road made only four miles an hour, as the track was under water for miles. If the high water continues and the Snyder levee breaks, a repetition of the scenes at Johnston will be witnessed.

THE OLIVE BRANCH

Another Attempt to Unite All the Methodist Churches of the United States.

The North Will Again Extend the Olive Branch of Peace to the South.

There Are Hopes That at Last the Desired Union Will be Effected.

OMAHA, May 10.—It is quite probable that before this conference adjourns the Methodist church will, in the words of the stump speaker, know no North and South. An effort to bring the church North and South together is being made and communications have already been opened with the officers of the church South by the committee on the state of the church to whom the following resolution was offered by Dr. King, of New York, was read:

"Resolved, That the members of the general conference of the Methodist Episcopal church rejoice greatly at the fidelity and prosperity of the great Methodist Episcopal church South whose members have as advanced from 400,000 to 1,200,000 in the last twenty years. That we sympathize heartily with the desire to reunite so eloquently expressed by our beloved Bishop Foster and we devoutly pray for its speedy consummation. That the general conference is hereby requested to take such action as it may deem best to secure the organic union of the Methodist Episcopal church, the Methodist Episcopal church, South and other Methodist churches."

The special order of the day, the report of the constitutional committee, was read by Dr. King, of New York, and there was confusion. Dr. Buckley asked the conference to allow Bishop Merrill to make a statement, a matter prohibited by the rules. Dr. King opposed it and thought the conference could not afford to lay down precedent and allow the floor to be taken by the influence on the floor in the interest of legislation. Dr. Miley of New York moved to speak. If such a thing is to imperil the good of the church, then let us speak. The report of the committee on the constitution was made a special order for the day, and the report was read. Rev. Dr. Carman, fraternal delegate from Canada, was presented to the delegates. The delegates were sung and the conference adjourned.

CONDITION OF THE CROPS.

Reports From Twenty-Two States or an Unfavorable Character.

NEW YORK, May 10.—The Times presents this morning a special dispatch from its correspondents in twenty-two different states in the Union, giving a careful and conservative summary of the conditions, prospects and yield of the growing of the articles named. The significant fact about the cotton crop is the decrease in acreage. That there is such a decrease is reasonably certain, though opinions differ as to how great it is. Estimates run from 10 to 15 per cent less in Louisiana, 20 to 25 per cent in Virginia. Drouth has seriously affected the crop in some states, in others it is reported to be in excellent condition. The total yield will be less than last year.

Corn has suffered from the late spring in the great corn growing states, but more particularly from continuous and heavy rains. In some states the planting is not half done, while in others it has not even been begun. Still, if good weather should come once, there would be an average acreage and yield of the great wheat growing states. South Dakota is the only one that promises a large crop. In Minnesota three weeks of cold rain have made the prospects of harvest far from flattering. In Wisconsin the prospects are not so good. North Dakota has had a wet spring, it is confident of a good crop. From Illinois and Indiana the reports are not so discouraging, though these states have suffered from the spring rains.

CONFESSED TO BIGAMY.

A Man Claims to Have Three Living Wives.

COLUMBIA, S. C., May 10.—E. H. Olney, the husband of three living wives gave himself up to the police in Augusta last night and confessed himself a scoundrel. He says one of his wives lives in Paris, Tenn. another in Augusta, Kans. and the third in a small town in Tennessee. Olney professed religion not long ago and this led him to confess the crime.

Olney is a machinist and came to Augusta from Blackstone, Mass., about a year ago. The Augusta authorities would not take him in charge, but advised him to go back to Tennessee of his own accord, which he says he will do.

THE STRIKERS PEACEABLE.

Non-Union Men at Work on the World's Fair Buildings.

CHICAGO, May 10.—One hundred iron workers from Pittsburgh reached South Chicago today on their way to the World's fair grounds to take the places of the striking structural iron workers there. A police captain and ten patrolmen escorted them to Jackson park. A demonstration of the strikers had been expected, but a police captain and ten patrolmen escorted them to Jackson park. A demonstration of the strikers had been expected, but a police captain and ten patrolmen escorted them to Jackson park.

A Fatal Fall.

GLADSTONE, Mich., May 10.—Christ Koeninger, a carpenter employed in the construction of the new coal docks of the Soo line, fell from the trestle, a distance of forty feet, striking on his head and shoulders. He lived but a few hours. His body was shipped to his home at Tomah, Wis.

The Thirteenth Victim.

PHILADELPHIA, May 10.—Wm. Hinchcliffe, the thirteenth victim of the Coltrane theater fire, died this morning in the Pennsylvania hospital. James Pigeon, one of those injured in the fire, is so low that he is expected to die at any moment.

No Cause for Action.

MAIDEN, Wis., May 10.—In the matter of the impeachment of Richard Sleight, district attorney of Ashland county, Governor Peck finds no cause for action and refuses to remove the gentleman from office.

THE FAIRBULT PLAN.

Archbishop Ireland Writes That It Has Been Approved.

MINNEAPOLIS, May 10.—An autograph letter has been received in this city from Archbishop Ireland at Rome which it is believed by his friends here settles without cavil the attitude of the vatican toward the so-called Fairbault plan. The letter is to the Rev. J. C. Byrne of the church of the Immaculate Conception, who was formerly private secretary of the archbishop. It is published by the Journal this afternoon and is in full as follows:

Rome, April 27, 1892.—Rev. Dear Father Byrne: I thank you for your letter and the interesting news item it contains. I believe the papers have been speaking sufficiently about me to render it unnecessary for me to give details to my friends at home. Apart from the annoyance of being away from Minnesota, my stay in Rome could scarcely have been more pleasant and instructive. I have been made to feel perfectly at home, indeed, loaded down with kindness. The pope, Cardinals Rampolla, Ledochowski, Farocchi, etc., seemed not to be able to do too much for me. I shall have reason to remember my visit to Rome, I am now on the home stretch hoping to leave in about two weeks. The so-called Fairbault plan is now formally allowed in spite of German and Jesuit. The decision is: "Tolerari potest," which means canonically, "It is fully allowed." A letter addressed to me in the name of the propaganda brings out the full practical meaning of the words. The plan is, of course, a departure from the ideal, and in case of a departure the canonical language is "Tolerari potest." But they imply to practice a full approval. Very sincerely, JOHN IRELAND.

THEY CHEERED FOR GROVER.

Connecticut Democrats Meet in State Convention Today.

NEW HAVEN, Conn., May 10.—The Democratic state convention was called to order in the Hyperion theater at 10 o'clock this morning by Clinton B. Davis, chairman of the state central committee. Judge Walsh, of New Britain, was then introduced as temporary chairman. Judge Walsh made a speech devoted mainly to state affairs. The committee on credentials reported no contest. Sen. E. Bradley, of New Haven, was chosen permanent chairman. The mention of the name of Cleveland in Mr. Bradley's speech aroused unbounded enthusiasm.

The platform demands a revision of the tariff along the lines of the national platform of 1888, and the removal of duties on raw materials. It also demands a stable currency of gold, silver and paper founded upon coined money of the least obtainable fluctuation in value. It applauds the integrity, the statesmanship and the lofty patriotism of the administration of Grover Cleveland, and arraigns the administration of Benjamin Harrison on several grounds.

The delegates-at-large selected were Alvin P. Hyde, of Hartford; Charles French, of Seymour; James B. Shannon, of New Britain; and E. B. Benedict, of Greenwich. Not a word was said as to instructing the delegation. The delegates were then called upon to appoint their own alternates and the convention adjourned.

DENIES ANY CUTTING.

The New York Central Denies Cutting Grain Rates From Duluth.

NEW YORK, May 10.—S. Goodman, general freight agent of the New York Central, denied this morning the rumor that the Central was cutting grain rates from Duluth to New York. He also denied the report that the company had contracted to carry 2,000,000 bushels of grain from Duluth to New York.

DIED FROM YELLOW FEVER.

LEWES, Del., May 10.—The Norwegian steamer, the Nor, Captain Hamholdt, fifty days from Rio in ballast, arrived at the breakwater this morning. On the voyage a line of cases were stricken with yellow fever. Two of them died and were buried at sea. Seven are now convalescent. Surgeon Orr, of the Marine hospital here, boarded the vessel on her arrival and placed her under quarantine and disinfection.

THE CONTRACT LET.

Grant & Foley Will Build the Transfer Railway Company's Tracks.

As predicted by The Herald, the contract for building the Duluth Transfer Railway company's tracks in from New Duluth, has been let to Grant & Foley. They are already receiving bids from sub-contractors and will commence work within twenty days. The contract requires the work to be completed by September 1st. It will be finished several weeks earlier. Work will be commenced first at Duncan, Brewer & Co.'s mill and the double track to Garfield avenue completed. The company will not give the figures at which the contract was let.

People's Party Club.

The regular weekly meeting of the People's party was held at Parson's business college last evening. About twenty of the faithful were present. The principal subject under discussion was the proposed fusion of the Prohibition and People's parties in future campaigns. Cass, Canning presided and representatives of a number of labor unions were present. The success of the Prohibition and People's fusion in North Dakota was elaborated upon by one of the gentlemen present.

The Missabe Proposition.

President Chase arrived in the city this morning. He was asked what proposition the Missabe & Northern would make to the council and said: "We will make a proposition when we are able to do so. We must first know what it will cost us to get into the city. Then we will be able to inform the council what we want. Until then we cannot submit any proposition."

The road has already contracted with the West Duluth Manufacturing company for building 120 cars.

The Lucille Purchased.

The Duluth-Superior Steamship company has purchased another boat, the Lucille. This gives the company four boats and will enable it to give excellent service. The Duluth and Superior will leave every half hour from 6:30 a. m. to 7:30 p. m. The boats will leave promptly on the hour. A new feature has been made by the company.

EATEN BY A BEAR

The Horrible Fate of Three Small Children in a Grove in Arkansas.

A Baby Half Devoured by the Ferocious Beast Before the Mother's Eyes.

As a Result of the Terrible Experience the Mother is a Raving Maniac.

MOUNTAIN HOME, Ark., May 10.—Mrs. Mary Carter, a widow with a family of small children, is a raving maniac as a result of a ride upon her little cabin by a half-starved black bear, in which two children lost their lives and one was half devoured before her eyes. Her cabin stood on the hillside some distance above the town. A heavy woodshed grove extends to it with the exception of a small clearing before the house.

In this patch her five children were playing, while the mother was engaged inside the cabin. Suddenly a wild scream of the children startled her. She saw an enormous bear strike down the oldest boy, who bravely attempted to defend the little one limb from limb before the mother's eyes and before help arrived from the village completed the meal and escaped within the forest.

PORTER FOR GOVERNOR.

Indiana Republicans Pushing Minister Porter as a Candidate.

INDIANAPOLIS, May 10.—There is a secret movement on foot in the state to induce Albert C. Porter, minister to Italy, to allow his name to go before the state convention as a candidate for governor. It is known that in three or four counties a petition has been circulated among the delegates to the convention asking Porter to allow his name to be used and is being liberally signed. Mr. Porter refused to consent himself before his return to Italy last month.

A Duel Near Washington.

NEW YORK, May 10.—A Washington special says two Baltimore physicians are reported to have fought a duel with swords on the Potomac near Washington yesterday. One is said to have been wounded. The quarrel is stated to have grown out of jealousy, and a Baltimore belle is reported to be interested in the matter.

A Contest Decided.

WASHINGTON, May 10.—The house committee on the elections has decided the contest case of Reynolds against Pennington. The vote was 100 to 90 in favor of Reynolds. The vote was unanimous.

Havana Cigars Seized.

NEW YORK, May 10.—The Ward line steamer Yucatan from Havana, which arrived late last night, was boarded by Special Agents Britton and Fuller, who seized a large number of boxes of cheap Havana cigars.

Marine Notes.

The tug Effie L. towed the often-lost schooner Glenora into port last night, and the tug barge Glenary came in shortly afterward looking for her. She will leave as soon as weather is favorable.

The whaleback steamer A. D. Thompson and tow barge 118 came in at noon today. They got through the ice much better than many of the old-style craft.

A large quantity of slush ice is circulating around the harbor today and more is coming in.

The Western Reserve is still at Sargent's dock unloading her coal cargo. She has been there since noon May 5.

The Record is at Portage Entry. She will be home as soon as the weather permits her coming along with her tow.

WHEAT DULL AND LOWER.

Futures Very Dull Throughout the Session.

First sales on the Duluth board today were made in July wheat at 1/2c below yesterday's close. Futures ruled dull, with no outside demand of consequence.

There was a brisk demand early, with some trading in cash wheat at slightly reduced prices. Futures were very dull all through the session and prices declined 1/2c on July before 1 o'clock. The market was dull and at other North-western points. The close was dull and weak at 1/2c to 1/4c below yesterday.

UNITED STATES COURT

Opening of the May District and Circuit Terms This Morning With Judge Nelson Presiding.

Informal Call of the Calendar in Both Courts Is Made and the Grand Jury Charged.

The Case Against W. F. Henry Is Dismissed on Motion of District Attorney Hay.

The May term of the United States court opened this morning at the court house with Judge R. R. Nelson presiding. Charles L. Spencer, United States district court clerk, is present and Marshal J. C. Danahower and deputies, F. A. Danahower and A. B. Brackett. District Attorney Hay and Deputy G. B. Edgerton are also on hand and court crier and messenger, J. E. Conway.

The circuit court calendar was taken up and an informal call taken. James C. Flynn vs. Wilson & Thatcher was transferred from the chancery to the law cases. The Hematite Iron company vs. Henry R. King, which was transferred from the state court, was remanded back. Anheuser-Busch Brewing association vs. W. N. Pollock came up this afternoon on a motion for judgment on the pleadings. John McSweeney vs. C. N. Nelson Lumber company was dismissed and William Delahunt vs. Pat Hynes and Frank Clark vs. Pat Hynes were continued. P. F. Conger vs. the Northern Pacific railway was stricken.

In the district court the grand jury was charged. A special venire for three jurors was issued, only thirteen having responded. The case of the United States vs. She Jokluhe, for perjury, comes up tomorrow and Charles A. Towne was appointed to defend him.

Three attorneys were admitted to practice, Page Morris and George E. Aubrey in the district and circuit court and Frank H. Cutting in the circuit court.

Henry Case Dismissed. The first case taken up this afternoon was the United States vs. W. F. Henry, and when it was called District Attorney Hay immediately moved its dismissal. This is the last of the indictments which have been hanging over Mr. Henry and is the only one on which he was ever brought to trial. His conviction, and the subsequent finding of the stables which he was accused of destroying, are familiar to every one. He is now completely vindicated.

Two Decisions F'ed. Judge Stearns filed his decision in the district court in the case of Herman E. Long, assignee of Brown Brothers vs. H. M. Ferry and Miss Vokes yesterday afternoon. Three certain warranty deeds given by Brown Brothers to Ferry are held to be valid as mortgages, and that the money was received by the firm and not the individuals. A contract from Ferry to Brown Brothers agreeing to convey the property in payment of the loan was assigned to Miss Vokes and this assignment is declared valid.

In the case of Backus vs. Burke, Judge Stearns decided a question of law. The decision of the lower court was reversed by the supreme court, and a mandate was sent to the clerk of court to that effect. Judge Stearns holds that the mandate was directed to himself and that the clerk should not have entered judgment without an order from him.

Filed With the Clerk. The Duluth Transfer Railway company has commenced condemnation proceedings to secure a strip of land 200 feet wide between Twentieth and Thirtieth avenues west, adjoining the St. Paul & Duluth right-of-way.

An order for plaintiff to show cause why R. C. Mitchell should not be granted an extension of time to prepare an affidavit in the case of Phillips & Russell vs. Tribune Publishing company was revoked.

A new trial has been granted in the case of Charles McNamara vs. John Pengilly.

George F. Durant has brought an action to recover \$300 from E. A. Brown and R. W. Gilkie on a promissory note issued to L. J. and A. W. Taussig and by them endorsed to the plaintiff without recourse.

A SERIOUS CHARGE. A Colored Woman Charged With Assaulting a Girl.

James Malone, colored, assistant head waiter at the Brighton hotel, was arrested today on a charge of rape, the complainant being Greta T. Alapera. She is a Finlander, 21 years of age, and is employed in the hotel as one of the kitchen help.

The two, it is said, have been keeping company for some time. The crime is alleged to have been committed last Sunday night. Malone is having his examination this afternoon at the municipal court.

Street Sprinkling Contrasts. There was some sharp competition in the bidding for street sprinkling this year, no less than twenty-four dealers in "wet goods" being willing to do the work. Districts No. 4, 5, 7 and 8 went to M. Kelley at \$14.70; districts 3 and 4, to F. Dahlgren at \$14.00; district 5, to Axel Bergman at \$13.90; and district to Eric Granfors at \$14. District No. 2 is now being advertised.

Thomas K. Hicks still continues his market at 327 West Superior street, where he always has a full line of first-class meats.

Fools cannot appreciate and therefore will not. On Thursday and Friday nights go and hear James Whitcomb Riley, the poet, who is the greatest living born actor.

Thomas K. Hicks is the originator of low prices in meats in this city. Compare the prices of today with the same date of previous years.

The Duluth Boy

He's the boy we are after. We love the Duluth boy, not only because he belongs to our city, and is our boy, but because he deserves to be loved.

This is what a man who has been in a great many cities, and is a close observer of boys, said about the Duluth boy:

"There are more bright, active, business-like, good looking boys in Duluth than any city I visit."

Now we don't want the boys to get vain over such praise as this, but to keep right on being brighter, better smarter than ever and to still remember our Boys' Clothing is just in keeping with such boys, the kind to dress them in to give them the respectability of appearance. It is neat, enduring, genteel and sold at such prices that all Boys can afford to wear it. But who shall we praise for all these bright boys? The Mothers, SURELY, and we do not hesitate to say the Mothers will still see that the standard of behavior and dressing is still kept up. We invite Mothers who have not tried our garments for their boys to see our line of

There is no Doubt the Recent Conference at Washington Was of Importance.

If Blaine Cannot be Induced to Run, Sherman Will be Shoved Forward.

New York, May 11.—A special to the Sun from Washington says that Republican newspapers engaged in belittling the political conference of Saturday evening, make misstatements of fact in order to counteract the effect of what took place. While these organs endeavor to establish that the conference was nothing more than informal talk between Messrs. Platt and Quay, the fact is that it was a most formal, carefully mapped out program by which to demagogize Harrison's ambition. The managers who composed notes at this meeting received reports from friends of various parts of the United States suggesting the continuance of the work against Harrison. One said yesterday that Harrison is already a beaten man. The net result of the meeting was in view of the encouraging reports as to the number of elected anti-Harrison delegates, the work towards his defeat should be pushed forward. The forces will rally around the name of Sherman, who at present is the strongest candidate. The contingency of Blaine's final decision will be kept constantly in mind, and if he does not make it impossible himself, he will be nominated. If he does, the anti-Harrison managers will throw all the votes they can control in aid of the movement to put the name of John Sherman, of Ohio, at the head of the ticket.

NOT ONE ESCAPED.

Forty-three Miners Killed by an Explosion in Washington.

ROSLYN, Wash., May 11.—Forty-three miners lost their lives by an explosion in the Northern Pacific coal mine here yesterday. Manager Kangley says the explosion was caused by gas which was probably ignited by a match or the careless use of a lamp. The true cause of the accident will never be definitely known, as no one escaped to tell the story. Thirty-three of forty-three of the miners imprisoned are married men, and widows and families clamor wildly about the entrance to the mine. Many of the families are entirely destitute.

The slope is 2600 feet long, and has several levels or crosscuts which intersect the slope horizontally at right angles. In opening some of the levels it is impossible to get air circulating through level until the work of opening the levels is completed. The slope dips at an angle of twenty degrees and was six feet high and fourteen feet wide. The levels are eight feet square. Seven hundred miners are at work rescuing the bodies and have reached the fourth level, having found seven bodies. The names of the men whose bodies were found are: Thomas Reese, Thomas Holmes, Ben. Oakes, A. H. (colored), Wm. Hague, Jack Boone and Harry Campbell.

The men known to be imprisoned and yet rescued are: John Rose, Joseph Cusworth, Jr., John Lafferty, Geo. Foran, John Dale, Jos. Morgan, Herman Dausie, John Carter, Edward W. Robertson, Robert Graham, George Moses, Jack Hodgson, Geo. Brooks, a son of Jos. Cusworth, Dan McClelland, son of Thomas Reese, Dan McClelland, Richard Forsythe, a son of Geo. Forsythe, Tobie Cooper, (colored), Lige Giles (colored), Scott Jackson (colored), Geo. Williams (colored), L. Loring (colored), Scott Giles (colored), A. H. (colored), Anderson, Charles Palmer, Mitchell Ross, W. Steel, John Dock, Jerry Weatherly, Joseph Hill, Thomas Brennan, Joseph Bennett, William Penn Hill, Sid Wright, James Morgan and Joseph Hosten (colored).

HILL IS FOR ECONOMY.

Hill Will Speak Against the River and Harbor Bill.

New York, May 11.—A Washington correspondent affirms that Senator Hill will make his first important speech in the Senate tomorrow, when he will oppose the river and harbor bill in a great speech against the river and harbor bill and in favor of national economy.

The correspondent alleges that Senator Hill recently said to friends that the Democratic party could make a better canvass next fall on the question of economy in appropriations than they could on all the other questions taken together, including the tariff and silver.

Gates Johnson Wins.

ST. PAUL, May 11.—A decision was handed down from the supreme court today in the celebrated Johnson-Starkley building inspector case. Johnson is reinstated and Starkley, elected in Johnson's place last January, is put out of office because of incompetency, the local ordinance providing that the incumbent must be a practical architect.

Fassett for Chairman.

MILWAUKEE, May 11.—Henry C. Fassett, member of the Republican national committee, said today that J. S. Sloan Fassett, of New York, would succeed J. S. Sloan as chairman of the national committee, providing Fassett would accept the office.

Archbishop Ireland's Plans.

ROME, May 11.—The Osservatore Romano today publishes a letter addressed to the American bishops by the Propaganda Fide in regard to the development of Archbishop Ireland's plans in regard to parochial schools.

Voted Against It.

WASHINGTON, May 11.—Congressmen Hall and Halverson, of Minnesota, voted against the river and harbor bill, but Halverson subsequently changed his vote at the clerk's desk.

COFFIN & WARNER.

A LYNNING BEE LIKELY.

The Wife of a Texas Section Boss Ravished and Murdered.

BRENNHAM, Tex., May 11.—Monday afternoon, near Lyons, the railroad section men found Mrs. McDonough, the wife of the section boss, and her 7-year-old stepson ventering in their blood on the floor of their home. The woman was dead and the boy died soon after the discovery.

All appearances indicate that the woman was ravished after having been beaten into insensibility, as a watch and some money lying on the bed refute the idea of robbery. The boy was probably killed in order to prevent him from testifying to the identity of the murderers.

Two men have been arrested and locked up on suspicion of being the guilty parties. One is a white man named Frank Connors and the other is a negro named Frank Davis. Both were recently discharged by Mr. McDonough. The evidence against them is very strong and it is expected they will be lynched.

THE RAGING MISSISSIPPI.

Three More Bad Breaks in the Levees Reported.

NEW ORLEANS, May 11.—At 11 o'clock this morning a large break occurred at Waterloo in Pointe Coupee parish on the west bank six miles below Bayou Sara. Advice says that it is quite a serious one. The river here at noon today registered 16.8 feet above low water mark. The lower levees are patrolled by workmen. Thirty-five miles below the city in Plaquemine parish. One was at Story's place, a few miles further down. This last break is more serious. Twenty feet of the levee was washed away at one time and the water poured through like a mill race. The latest reports say that both ends of the break are washing badly and it looks as if the entire levee will go.

Advices from Morganza this morning say that the grand levee is still intact, although the water is beating against its crest furiously. The river is still rising.

IT WAS FOR BOIES.

Iowa Democrats Meet in State Convention and Room Boies for the Presidency.

Predictions Confidently Made That He Would Lead the Democracy to Victory.

A Hill Delegate Creates an Exciting Scene in the New Hampshire Convention.

COUNCIL BLUFFS, Ia., May 11.—The Democratic convention was still in getting together, and it was 11:15 o'clock, or fully three quarters of an hour after schedule time, before the party baid head of Chairman Fuller of the state central committee began to rise above the mass of humanity wedged together upon the platform. There were a few moments of devotional exercises and Chairman Fuller introduced John C. Bills of Scott county, as temporary chairman.

Davenport, Iowa, taking the chair, thanked the convention for the honor. He declared that there was no longer any Republican party in Iowa. The organization posing under that name, he averred, was the Prohibition party in disguise. He then took up the McKinley bill and endeavored to show its ill effects upon the farmers of Iowa. He declared that he was a man without enemies and a most available rectified the quarrels of the Democracy in New York and hinted that while Mr. Cleveland would be nominated by acclamation if there were no factional difficulties, yet the party should carefully consider the situation before taking a step which might alienate a section of the Democracy in the Empire state.

At Mr. Bills' conclusion the roll of districts was called for the announcement of the work of the various caucuses. In some of them were interesting contests. The delegates to Chicago, members of the state central committee, were elected by the committee on resolutions. The tariff resolution entered into the free coinage people were knocked out.

J. E. Markley, of Mason City, the permanent chairman, congratulated the Democrats of Iowa upon the prospects for victory in the coming campaign. He concluded with an eulogium of Horace B. Hoar, who had been elected to the liquor issue helped to overcome the Republicans in 1890, and that this issue was the only one on which the Democrats adherents as the campaign were on. He attacked the McKinley bill at considerable length and declared that the verdict of 1890 would be confirmed in 1892. He closed with an appeal to the national platform, and to nominate a Governor Boies for president. "Choose Boies," he said, "and you will lead us in this choice, and when the tide of November comes we shall surely win a triumph for the national Democracy inaugurated as President Horace Boies."

The platform will declare for tariff reform as the overshadowing issue and will give the governor a ringing endorsement for the presidency with instructions for him. The people confirm your choice at large to be yet elected can pretty clearly discern. Senator Charles F. Smith, of Iowa, said he was certain to be two of them. Senator Campbell, who at one time was pretty sure to be elected, said he was certain to be two of them. Senator Campbell, who at one time was pretty sure to be elected, said he was certain to be two of them.

QUIT AN EXCITING SCENE.

A Hill Man Creates a Row in the New Hampshire Convention.

COUNCIL BLUFFS, Ia., May 11.—The Democratic state convention to choose delegates to the Chicago convention was called to order in Phoenix hall at 11:05 a. m. today by John P. Bartlett, of Manchester, chairman of the state committee. The officers and committee selected at a meeting of the state committee last night were elected officers of the convention by acclamation. Hon. Oliver E. Branch, of Weare, was escorted to the platform. On being introduced by Chairman Bartlett, Mr. Branch was warmly received and made a speech.

Mr. Branch's address was warmly received, his reference to ex-President Cleveland being loudly applauded. Mr. Branch then created a sensation by saying that he came to represent those who had grievances against the Democrats and who had aspired to further high honors at the hands of the party. "I charge," continued he, "Grover Cleveland and his past administration with disloyalty and unfaithfulness to the rank and file of the Democratic party. The speaker was interrupted by storms of hisses and cries of 'no!' and 'never.' The excitement was intense for a short time. When the confusion subsided Chairman Branch ruled Mr. Urch out of order.

A motion was made to proceed to ballot for delegates at large, and Mr. Urch moved to table the motion. His motion was postponed, and balloting was then proceeded with. Mr. Sanborn submitted the platform and Mr. Urch moved to strike out the name of Cleveland and substitute that of Hill. There were hisses and cries of 'about up!' 'sit down,' 'put him out!' and the chairman ruled the motion out of order. The platform was adopted without further objection. The delegates at large were chosen nearly unanimously, and they are Harry Hingham and F. Jones, A. W. Sulloway and G. B. Chandler.

Lewis Coleman Is Struck by an Ore Bucket and Killed.

Lewis Coleman, who died Monday at Capt. Blake's camp in 58-77. The bucket filled with ore was being drawn up but slipped from the hook and fell striking Coleman on the head. He died seven hours after being hurt. The remains were brought here today and will be sent to Pennsylvania for interment.

A GHASTLY LOAD.

A Boat Containing Three Bodies Is Found in the Ice.

The tug Carrington came into the harbor at 10 o'clock today with a ghastly load. She found a sailboat in which were the bodies of three men drifting in the ice. The boat was crushed and the masts and sails broken and torn. It was brought in to the Northern Pacific dock and the owner sent for. The boat was filled with water and all that can be seen is the body of one of the men lying face downward, clutching the side, and with the ropes wound around him. They are supposed to be three fishermen who left Two Harbors a few days ago and have been missing ever since.

WHEAT WAS DULL.

THE NOISE OF WAR

The People of Venezuela Are Still in the Throes of a Bloody Revolution.

The Present Lull Will Soon be Broken and a Big Battle is Expected.

Gen. Crespo is Waiting to Get More Arms Before Taking an Aggressive Course.

New York, May 11.—A special to the Herald from Barcelona, Venezuela, says the situation in Venezuela is not materially changed. Desertions from the government continue. The deserters are principally peasants and laborers recently conscripted. Several skirmishes have taken place between the advanced posts of the revolutionists and the government forces, but there have been no important fights reported since the battle of Palo.

At Lagunayra and Puerto Cabello all is quiet at present, and there is no longer any difficulty in discharging or loading cargoes. The normal condition of affairs is largely restored. No definite news is received from the seat of the revolution. It is generally supposed, however, that the outbreak of rebellion is progressing favorably. In all likelihood the next big battle will be fought at La Victoria. The revolutionists surround the town on all sides preventing communication between it and Caracas. The besieged town. Crespo's men occupy all the commanding heights around La Victoria.

The lull now existing cannot last long. Crespo continues to receive arms and ammunition. When a full supply shall have been obtained he will assume the offensive. Until now he has been content to maintain his position around Valencia and La Victoria.

"FLINTS AND MATRONS."

A Chat With the Fair Creator—Duluth Generosity.

Miss Jennie O'Neil Potter, who appears at the Temple this evening opening her Western circuit here with "Flints and Matrons," is at the Spaulding. The performance this evening will be the eighth-seventh presentation of the popular monologue. Miss Potter has a warm corner in the hearts of Duluth's social leaders, for whom she gave a private recital here two years ago. "Miss Potter is a charming little woman, whose personality (added to professional skill as a dramatic reader of international reputation) has done much to advance her rapidly to the very front rank in her line. Greeting a Herald representative very warmly, she briefly and briefly of her play, which she characterized as a unique departure from a regular concert company performance." She makes eight complete changes of dress in her different characters, using three to four minutes in each change. The intervals are filled in with vocal selections by T. Taylor Drill, the eminent baritone. The performance lasts two hours and was undoubtedly greeted by a crowded house of Duluth's best people.

During her passage through London to New York on the steamer City of Chicago Miss Potter met two gentlemen from Duluth whose names she does not now recall, but whom she desires to meet again. She says that for generous sympathy to a poor distressed and suffering Irish emigrant woman and little children the Duluth gentlemen made a kindly memory that will not die out.

The Duluth gentlemen were instrumental in getting a purse started for the poor woman and Miss Potter says when the emigrant and her little family left the ship that she had clothes enough and money enough to carry her to her destination and materially in furnishing a home. Speaking of James Whitcomb Riley Miss Potter said "Ah! he is grand; he is my favorite poet. Duluth people must not miss the opportunity to hear him. He is America's sweetest poet. The two Duluth gentlemen to whom Miss Potter alludes are: Dr. McAvillie and Harry Totman.

The News says this morning: "Does
The Herald think the people of Duluth
are in favor of the Washburn or Hatch
bill? Does it favor either of them?"The Herald must answer both these
questions in the affirmative, and would
add that if there is any politician in Du-
luth who is opposed to a bill of this
character and is anxious to be elected to
congress from the Sixth district, he must
either abandon all hope of being elected
as congressman, or must revise his
views on the anti-option bill.The Herald believes, however, that
outside of a small class of grain gam-
blers, who are mere flies-on-the-wheel in
connection with the grain trade,
the people of Duluth, who have
given this subject any consideration,
are heartily in favor of
a measure embodying the central idea
of the Washburn and Hatch bills, which
would put an end to deals in fictitious
wheat and wipe out the stigma of gam-
bling which is now attached to the grain
trade of this country. The Herald be-
lieves that gambling in futures is not an
essential feature of the grain trade, and
is not necessary to the prosperity of
the Duluth board of trade or to the main-
tenance of Duluth's standing as the
greatest primary wheat market in the
world. Neither does it believe that this
species of gambling is a harmful con-
sideration on the part of the board
upon the Duluth board, and hence any
measure of the character in question
would not affect any person dealing in
grain in this market.It has been shown by the "May deliv-
eries" here this week that "wind specu-
lation" does not obtain upon the Duluth
board, as over 12,000,000 bushels of grain
have already been actually delivered
this month, going from receivers and
consignees into the hands
of the shippers. It is claimed that the
May deliveries here are ten times the ac-
tual wheat deliveries of all other boards
in the country combined. This claim is
made by the grain men here and they
are in a position to know what they
are talking about. It is also a fact that
the daily transactions upon the Chicago
board alone aggregate many more bushels
of wheat than do those upon the Du-
luth board. Now if it be true that the
actual deliveries of wheat on the
Duluth board are ten times
greater than the actual deliveries on all
the other boards in the country com-
bined, and if it be true that the daily
transactions on the Chicago board ex-
ceed those on the Duluth board, does it
not clearly show that by far the greater
number of the deals on the Chicago board
are merely "wind speculation"—in brief,
gambling? If a measure were adopted
by congress which would put an end to
this "wind speculation," does it not ap-
pear reasonable that the dealers on the
Duluth board would be largely the gam-
blers by the removal of an influence lim-
ited only by the size of the "roll" pos-
sessed by these Chicago gamblers?As The Herald understands the amal-
gamated Washburn-Hatch bill, the one
endorsed by the Minnesota Republican
convention last week, it does not inter-
fere with legitimate trading in wheat for
future delivery, where the wheat is ac-
tually in existence and in the possession
of the dealer who sells it for future de-
livery, but it does aim a deadly blow at
the mere gamblers in futures who never
owned a bushel of wheat in their lives
except in imagination and do not want
to own a bushel. It is utterly absurd to
claim that this "wind speculation" does
not have an evil influence upon the mar-
ket, by depressing and raising prices
from time to time when natural condi-
tions do not warrant such fluctuations.The Duluth grain trade would be ben-
efited by the passage of such a measure,
because it would be freed from the mal-
ignant influence now exercised on
prices by the Chicago
gamblers and Duluth being
the point where the greatest amount of
bona fide trading in wheat is done, wouldbecome a still greater grain center than
it has been in the past.For these reasons, among others, The
Herald favors a properly framed anti-
option bill, such as the amalgamated
Washburn-Hatch bill promises to be,
and it feels certain that every loyal citi-
zen of Duluth, who has studied the
matter, will be found on the same side
of this question.WEST SUPERIOR STREET.
The remarks of Alderman Kennedy at
the council meeting on Monday evening
agree with the sentiments entertained by
The Herald, so far as the paving of
West Superior street from Thirteenth
to Thirty-fourth avenues is concerned.
There is no doubt that there is an urgent
demand for this improvement and that
it should be made this year and it seems
strange indeed that it should have been
reported upon adversely by the board of
public works. The main reason offered
for the adverse decision of the board is
that only sixteen persons, representing
about thirty lots out of 336 lots liable to
assessment, have petitioned for the im-
provement, and that the district court has
enjoined the board and refused to en-
force the payment of assessments where
improvements had been ordered on mi-
nority petitions.If no improvements are to be ordered
except upon petition of the owners of a
majority of the lots subject to assess-
ment, many important public improve-
ments of urgent necessity will never be
made. The board may be correct in
stating that it has been censured by the
district court for ordering improvements
upon minority petitions. If so, the court
has simply exceeded its authority and its
censures are entirely unjustifiable. There
is no provision in the city charter which
requires that a majority petition is nec-
essary before the common council can
order any improvement that it desires.
Indeed, no petition at all is necessary.
Section 4 of chapter 5 of the charter
says: "If no petition is made asking for
the making of said improvement, and if
in the opinion of the common council
public necessities require that it should
be made, the common council may by
resolution declare that, in their judg-
ment, the making of the improve-
ment contemplated is necessary."It is further provided that
if the board of works shall
determine that the improvement is not
necessary and proper, the common coun-
cil can still order the improvement
by a three-fourths vote of all the mem-
bers-elect of the council. Nowhere is
there any provision that a majority of
owners of abutting property must peti-
tion for an improvement. There is
therefore no ground whatever for the
legal objections raised by the board.Another reason assigned for the ad-
verse report is that West Superior street
is in a passable condition and Michigan
street is in shape for any kind of travel.
The board of works has no valid
reason for delaying the paving of West
Superior street. The street is not in the
fit condition it should be. It never
will be until it is paved. West Duluth is preparing to
pave one of its streets to the city limits
to a junction with West Superior street,
and this is one reason why the latter
should be paved. Another reason is
that it is the main street for travel be-
tween Duluth and West Duluth. The
electric cars run over it, and this is also
a strong reason in favor of paving. The
cost of this improvement would not be
any burden upon the property owners
in the district, as the improvement is for
the benefit of the public and the city
that could well stand a special as-
sessment if it is the property on West Su-
perior street. The property is valuable
and paving the street would increase its
value considerably. The fact that much
of this property is owned by outside in-
vestors, who are holding it for specu-
lative purposes and therefore will not sign
a petition for the improvement, should
not deter the council from at once pro-
ceeding with the work.The Pioneer Press of yesterday con-
tained a Duluth dispatch stating that
the congressional pet on the Republican
side is at the boiling point. This is a
case of going away from home for
news. Probably the correspondent in-
dited the dispatch from a Turkish bath.After all the talk about Blaine, Sher-
man, McKinley, et al, has simmered

BURGLARS ARE ABROAD.

L. W. Meining & Co.'s New Hardware Store is given a call by some of the country.

Revolvers, Razors and Knives to the Value of About Five Hundred Dollars are Carried Off.

The Thieves Enter From the Rear of the Store and Have Things Their Own Way—There is no Clue.

L. W. Meining & Co., who have recently moved into their new store at 18 West Superior street, received a house-warming last night that they will not soon forget.

At 7:30 o'clock this morning, when Bookkeeper Snell entered the store, he found one of the rear windows partly open.

He found an electric razor lying on the floor near a radiator, and lying against a letter clip was a knife of peculiar construction of Swedish make.

He called the attention of other employees to the find and in a few moments one of the clerks found a large pair of shears with the blades badly bent out of shape, which had evidently been used in a futile attempt to force open a counter money drawer.

Investigation then showed that a general but very judicious burglary and looting had been going on through the store.

From the front show window six Smith & Wesson revolvers and some razors and small articles of hardware had been taken from the store, he found about \$3 each, and the revolvers \$13.50 each, or an estimated aggregate of between \$500 and \$600 in value.

The burglars, however, seem to have been but one inside the store, entered the building from the Michigan street end, clambering upon a pile of boxes, then down to the store, there appearing to have been two people at the rear but one evidently remained outside to watch.

The police have the matter with them in charge but the store employees made no effort to keep the affair quiet so the task of finding the thieves may be a hard one.

IT WILL BE CLEVELAND.

So Says Delegate John G. Brown, of Duluth.

John G. Brown, the handsome and popular young Duluth Democrat who will represent the northern part of the Sixth district at the Democratic national convention in Chicago next month, was in the city yesterday looking after business interests returning to the city after his trip to the convention.

Mr. Brown is, of course, a Cleveland man, and inclined to the opinion that his favorite of the position of the New York delegates.

"If Governor Hill would retire in favor of Mr. Cleveland," he said, "I would make a ten-strike for himself. That one act would unify the party in all parts of the state."

SHE-JOB-BLUE GETS OFF

The Indian of the Awful Name is Acquitted by the Jury of Committing Perjury.

The Porter Mail Robbery Case on Trial This Afternoon—Evidence is Circumstantial.

A Young Man Wants a Real Estate Deal Annulled Because He Was Under Age When It Was Made.

The criminal calendar occupied the attention of the United States district court this morning. She-Job-Blue was tried for perjury and the jury gladdened his heart with a verdict of acquittal.

Mig-E-Zence, Frank Mountry, Frank Nesbitt and Alex. McDonald were arranged all on a charge of selling whisky to Indians or carrying the wicked stuff onto reservations. They pleaded not guilty.

This afternoon John W. Porter is to be tried for stealing a mail bag from the transfer wagon at St. Cloud, and the case will be the most interesting of the term.

The evidence against him is entirely circumstantial. The greatest point against Porter is that a mitten found near where the mail bag was thrown is the mate to one found in Porter's pocket.

The grand jury is still in session and has brought in several indictments, some of which have not yet been made public.

WAS UNDER AGE.

W. G. Smith Wants a Real Estate Deal Annulled.

W. G. Smith has sued the New Duluth Land company in the district court to recover \$800 and some notes given it.

Smith purchased seven lots in New Duluth from the company in October, 1890, paying \$800 in cash and giving notes \$1600. He now claims that he was under age at the time and repudiates the contract.

W. H. Nesbitt has brought an action to have a correction made in the description of some lots in a bond given him by Frank Bowles and A. Porter, guaranteeing the creation of some houses and in case of failure agreeing to forfeit \$350.

Nesbitt also declares that point contract has not been carried out and wants the \$350.

Judgment has been entered in the case of W. R. Marsh vs. F. J. Marsh for \$1016.23, due on some notes.

The Use of the Thumb.

Our humorists seem to fade early. Mark Twain has abandoned fun-making in the prosaic effort to become a millionaire.

A dozen years ago one of the brightest of the good-humored satirists was Bob Burdick—but ever since the death of the "little princess" he has been almost entirely silent; gone to preaching, it is said. Still, he bubbles over occasionally, and his last is the discovery of the use of a man's thumb as a preventive of profanity.

When a fellow pounds his thumb with a tack hammer or jams it between two joints of stove-pipe, says Bob, he inadvertently stuffs the injured member in his mouth, thereby stopping the flow of cursed words. This is rather ingenious, but so far from having any use for his thumb as a profanity-stopper, the man who accepts the Burlington as his line for a railroad ride could be without thumbs. The roadbed is so smooth, and the equipment and accommodations so superb, that the passenger is always of a tranquil mind, and for any information address W. J. C. Kenyon, General Passenger Agent, St. Paul, Minn.

Dr. Price's Cream Baking Powder

CONTAINS NEITHER AMMONIA, ALUM OR ANY OTHER INJURIOUS DRUG.

The Wisconsin Dairy and Food Commissioner says

In his Annual report for 1890, on page 82:

"The National Dispensary says of Carbonate of Ammonia: 'It is irritant, and if long continued, even in doses which the stomach will tolerate, it impairs nutrition; in doses of five to ten grains it increases the fullness and force of the pulse and causes a sense of lightness in the head. It is one of our most powerful medicines and certainly should not be used in the preparation of foods.'"

On page 85 the report further states:

"The result of experiments would indicate that the residues in bread made from Alum Baking Powder, have a decided effect on a delicate and healthy stomach. The weight of testimony is decidedly against the use of ALUM."

The following powders contain either ammonia or alum, or both: Royal, Calumet, Forest City, Pearl, Univalled, Echo, Crown, Chicago Yeast, Bon Bon, Star, New Era, Snow Ball, Zipp's Grape Crystal.
